CUZ

November 2026 Edition

CUZ is an acronym for Clean Up Zushi.

How to dispose of garbage and recyclable items in Zushi City

Starting November 2026
Separate collection and recycling of raw garbage will begin

Collection days in your district

* Check collection days in your district according to the garbage collection calendar and write them down.

Garbage will be collected on holidays as well (except for the year-end and New Year holidays).

Put burnable garbage and non-burnable garbage separately in designated collection bags for disposal (blue).

Put raw garbage in designated collection bags for disposal (yellow).

Burnable garbage Raw garbage	Every		and	(day of the week)
Non-burnable garbage PET bottles	Every			(day of the week)
Plastic containers and packaging	Every	Wednesday		
Glass bottles	On the		and	Wednesday
Leaves, grass, gardening waste	First, third, and fifth			(day of the week)
Hazardous waste Small appliances	Second and forth			(day of the week)

Group resource collection
(Collection days vary depending on your area of residence)

Paper (5 items)	Fabrics	Aluminum cans	Steel cans	Household metal	
					(day of the week)

Matters concerning the fee-based household waste disposal system, group resource collection, and the subsidy program for the purchase of raw garbage disposal containers, etc.

Recycling and Waste Management Division ☎046-873-1111

Rules of waste disposal at garbage collection spots

- Be sure to properly sort garbage and put it out to the designated garbage collection spot by 8:30 in the morning on collection days.
- Be sure to use designated fee-charged bags (blue) to dispose of burnable garbage and non-burnable garbage.
- Be sure to use designated fee-charged bags (yellow) to dispose of raw garbage.
- To dispose of recyclable items other than burnable garbage, non-burnable garbage, and raw garbage, use transparent or semi-transparent bags (up to 45L) which the contents are visible, and sort those recyclable items according to type.
- Any waste disposed of against the waste sorting rules will not be collected.
- Up to three bags (up to 45L each) of waste are acceptable at a time for one household's output. If the number of bags is four or more, ask to collect the waste as bulky waste or directly drop them off at the Environmental Clean Center (charged).
- A large amount of waste to be disposed of on a temporary basis due to moving, big cleanups, or pruning of garden trees is not accepted at garbage collection spots. Contact the Environmental Clean Center beforehand.
- Waste from businesses is not accepted at garbage collection spots. Business operators that are allowed to dispose of a small amount of waste by using designated collection bags must put their names on the bags. Businesses that generate raw garbage do not qualify as small-quantity waste producers, so they cannot dispose of waste at garbage collection spots. Industrial waste is not accepted. (page 27)

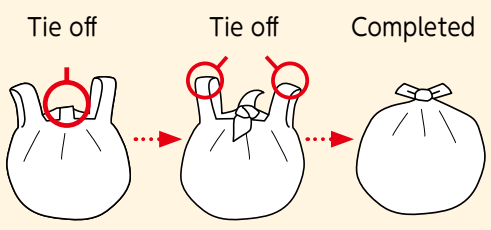

Garbage collection spots in the City are to be managed and maintained by the people who use them.

- Avoid disposing of waste at undesignated garbage collection spots because it would annoy people residing in that district.
- Some garbage collection spots may have rules, such as cleaning duty, established by the users. Please follow these rules when using them.
- Be responsible for garbage disposal and cooperate with each other to maintain clean and pleasant living environment.

How to use a collection bag

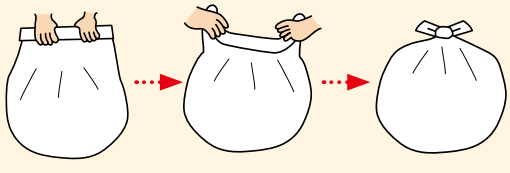

If the bag is loosely tied, waste could spill out or be scattered, making the surrounding area dirty and annoying people in the neighborhood. Securely tie the top of the bag so that whole waste is securely kept inside the bag.

How to tie off a typical plastic bag from stores

How to tie off a plastic bag with a flat top, one without carrying strap-handles

Fold the top of a bag two or three times, hold both ends, and tie those off.

Example of an inappropriate way

Waste spills out

Be sure to follow the rules of sorting waste and disposing of it.

The City conducts content inspections of waste that violates the rules and provides guidance accordingly. The "Zushi City Ordinance on the Reduction, Recycling, and Proper Disposal of Waste" sets forth provisions on measures such as improvement recommendations and public disclosure with respect to violators.

Process of disposing of garbage and recyclable items

START
Disposing of waste

Is it gardening waste?

YES

NO

The length of each side is less than 50 cm.

YES

NO
(50 cm or more)

It is a designated item (page 9).

YES

NO

Designated item (charged) (page 9)
Collect up to five items, bind them together by wrapping a designated collection bag (regardless of bag size) around them, and dispose of them on the non-burnable garbage collection day.

- When the diameter is less than 15 cm, cut the item into pieces shorter than 1 m.
- When the diameter is between 15 cm and 20 cm, cut the item into pieces shorter than 80 cm.
- When the diameter is between 20 cm and 30 cm, cut the item into pieces shorter than 30 cm.

NO

YES

Starting November 2026

Burnable garbage (charged) page 7
Put it in a designated collection bag.

Disposable diapers (free of charge) page 7
Disposable diapers are collected free of charge if separated.
* Pet waste is "burnable garbage (charged)."

Raw garbage (charged) page 8
Put it in a designated collection bag.

Grass and leaves (free of charge) page 13
* Up to three bags at a time

For gardening waste, see this.

Non-burnable garbage (charged) page 9
Put it in a designated collection bag.

Hazardous waste (free of charge) page 10
Separately put them in different bags according to items.

Small appliances (free of charge) page 14
Please cooperate by bringing specified target items to the dedicated collection box.

Household metal (free of charge)(group resource collection) page 18
Remove parts that are not metal as possible as you can.

PET bottles (free of charge) page 10

Plastic containers and packaging (free of charge) page 11

Aluminum cans (free of charge)(group resource collection) page 17
Separate aluminum cans from steel cans.

Steel cans (free of charge)(group resource collection) page 17
Separate steel cans from aluminum cans.

Glass bottles (free of charge) page 13

Newspapers (free of charge)(group resource collection) page 15
Ad inserts can be included.

Magazines (free of charge)(group resource collection) page 15
Staples can be included.

Cardboards (free of charge)(group resource collection) page 15
Remove packing tape, carbon paper, and other materials.

Drink packs (free of charge)(group resource collection) page 15
紙パック Only items with paper carton marks can be disposed of.

Paper item ("mixed paper") (free of charge)(group resource collection) page 16
Soiled paper, foul-smelling paper, and specially-processed paper are "burnable garbage (charged)."

Fabrics (free of charge)(group resource collection) page 17
Wash and dry them.
Unacceptable on rainy days

Bulky waste (charged)(individual collection) page 21
Bulky waste is classified as either "Bulky waste" or "Oversized items of refuse" and the fees are different.

Gardening waste (free of charge) page 13
* Up to three bundles at a time.

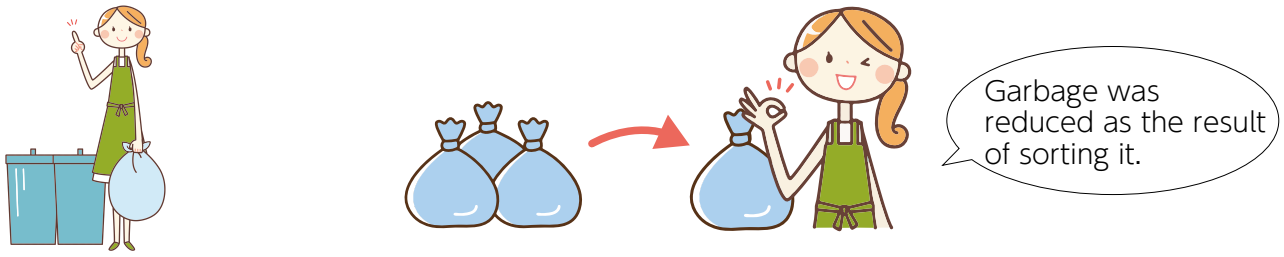

Process of disposing of garbage and recyclable items

- Products mandated for recycling by law (computers, air conditioners, TVs, refrigerators/freezers, washing machines/clothes dryers) will not be collected. Check page 25 for disposal methods.
- Check pages 25-26 for disposal methods of items that cannot be collected by the City.

A household waste collection fee is charged since October 2015

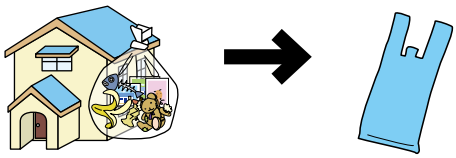

Reduction of garbage and promotion of recycling.

If each person becomes more conscientious about reducing garbage and sorting it, discharge of garbage could be suppressed and the sorting of recyclable items is expected to progress.

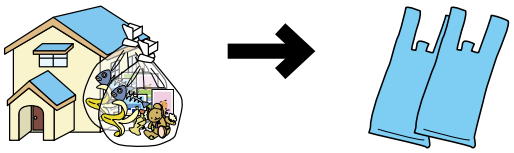

Burden of expense becomes fair according to the amount of garbage disposed of (beneficiary liability).

○A household that disposes of a bag of garbage pays a garbage collection fee priced at one collection bag.

○A household that discharges two bags of garbage pays a garbage collection fee priced at two collection bags.

As the result of reviewing items of waste to be sorted, if garbage is properly sorted, the amount can be reduced and the burden of payment can also be reduced.

"Leaves, grass, gardening waste," "Hazardous waste," "Small appliances" and "Household metal" will be added to the sorting categories. They are collected free of charge.

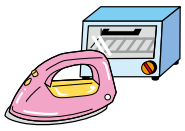

○Leaves, grass, gardening waste

○Hazardous waste

○Small appliance

○Household metal

As the result of our citizens' cooperation, burnable garbage and non-burnable garbage have been reduced.

Reduction of burnable garbage 35.9%

2014 fiscal year	14,115t	
2025 fiscal year	9,041t	5,074t

92.3kg of decrease per person per year

Reduction of non-burnable garbage 63.3%

2014 fiscal year	540t	
2025 fiscal year	198t	342t

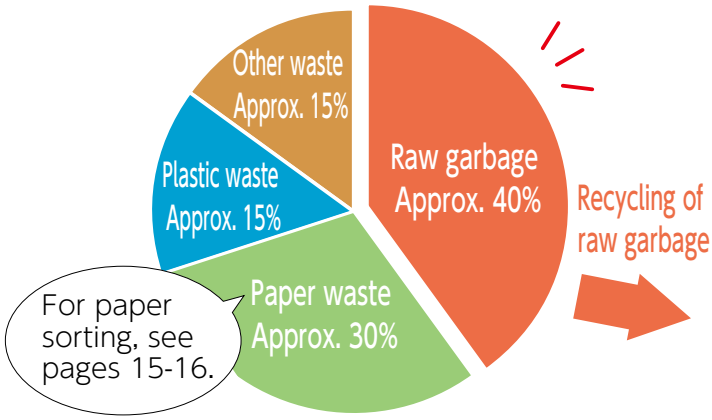

6.2kg of decrease per person per year

This is comparison with the period before the introduction of charge for household waste collection.

To further reduce burnable garbage and promote recycling

Items of burnable garbage

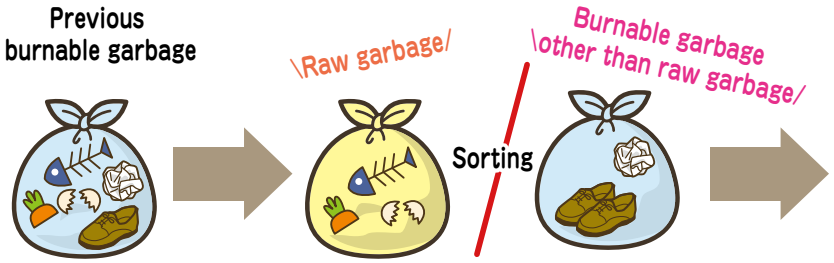

Of the burnable garbage from households, raw garbage accounts for approximately 40%, the largest component, followed by paper waste at about 30%. Raw garbage can be recycled without incineration, so by separately collecting raw garbage and composting it for reuse, the amount of burnable garbage can be significantly reduced.

The substantial reduction in waste incineration volume contributes greatly to:
Reducing waste processing costs
Lowering environmental impact
Creating a recycling-oriented society

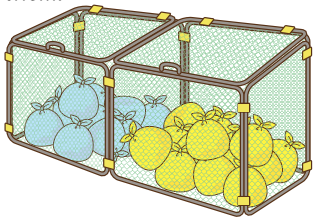

Zushi City will begin separate raw garbage collection and recycling from November 2026

Separate "raw garbage" and "burnable garbage other than raw garbage" and place them in their respective designated collection bags.
"Burnable garbage" and "raw garbage" will be collected on the same day.

Place "raw garbage" bags and "burnable garbage" bags on opposite sides of the garbage collection spot so as not to mix them.

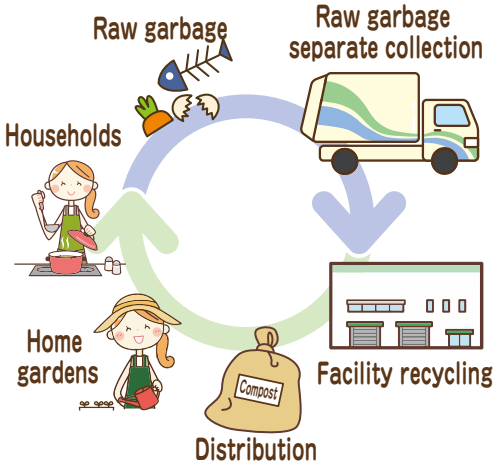

Collected raw garbage will be recycled (composted) at a resource recycling facility.

At the raw garbage recycling facility in Hayama Town, raw garbage is reduced in volume and turned into compost through fermentation and decomposition by microorganisms. The resulting compost is distributed at compost stations within the City so that residents can use it, thereby promoting resource circulation.

City compost stations

1002117

Garbage is collected by dividing the City in two areas.

Taking into account the number of households in the area and the number of garbage collection spots (waste collection points), the City is divided into two collection areas.

Area	District name
North-East area	Hisagi 1-chome to 3-chome, Hisagi 5-chome to 9-chome, Sakurayama 4-chome 14 to 16, Sakurayama 5-chome 5 to 19, entire Numama district, entire Ikego district, and entire Yamanone district
South-West area	Hisagi 4-chome, Sakurayama 1-chome to 3-chome, Sakurayama 4-chome 1 to 13, Sakurayama 5-chome 1 to 4, 20 to 46, and 525 to 526, Sakurayama 6-chome to 9-chome, entire Zushi district, entire Kotsubo district, and entire Shinjuku district

The City is divided into two areas north and south with the JR Yokosuka Line as an axis: "North-East area" that includes a part of Sakurayama 4-chome and 5-chome, and Numama 1-chome, 3-chome and 5-chome; and "South-West area" that includes other districts.

Items of garbage to be collected are different according to district, week, and day of the week.

For collection days, refer to the "Garbage and Recyclables Collection Calendar" distributed to all households with the September issue of Zushi City News.

* **Collection days for group resource collection vary by neighborhood association. Collection days are listed on pages 19 and 20 of this CUZ.**

Disposal fee will be charged for burnable garbage, non-burnable garbage, and raw garbage.

Use designated fee-charged bags to dispose of burnable garbage, non-burnable garbage, and raw garbage, and put it out on the appropriate collection day.
There are two types of designated collection bags: "Burnable/Non-burnable garbage (blue)" dual-purpose bags and "Raw garbage (yellow)" bags.
* Designated collection bags from outside Zushi City cannot be used.

Size and price of the designated collection bag * Consumption tax will not be imposed.

"Burnable/Non-burnable garbage designated collection bags"

Bag size	5 liter bag (mini)	10 liter bag (small)	20 liter bag (medium)	40 liter bag (large)
Sale price (a set of 10 bags)	100 yen	200 yen	400 yen	800 yen
Price per bag (2 yen per liter)	10 yen	20 yen	40 yen	80 yen
The 5L-bag, 10L-bag, and 20L-bag are typical shopping bag style with handles, and the 40L-bag is a square flat bag without carrying strap-handles.	←18cm→ (Excluding gusset) 42cm	←26cm→ (Excluding gusset) 50cm	←33cm→ (Excluding gusset) 60cm	←65cm→ (Without gusset) 75cm

"Raw garbage designated collection bags"

Bag size	3 liter bag (small)	10 liter bag (large)
Sale price (a set of 10 bags)	30 yen	100 yen
Price per bag (1 yen per liter)	3 yen	10 yen
Both 3 liter and 10 liter bags are typical shopping bag style with handles.	←18cm→ (Excluding gusset) 35cm	←26cm→ (Excluding gusset) 50cm

To encourage raw garbage separation
To reduce the cost burden when raw garbage is separated, the "Raw garbage designated collection bags" are priced lower than the "Burnable/Non-burnable garbage designated collection bags."

Raw garbage designated collection bags use pigments with optical properties that make the contents less visible to crows.

Recyclable items other than burnable garbage , non-burnable garbage, and raw garbage are collected free of charge.
For recyclables collected free of charge, use transparent or semi-transparent bags of 45 liters or less without using designated collection bags.

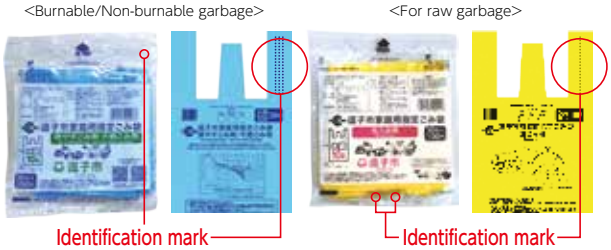

About identification markings

Special processing has been applied to help visually impaired individuals identify the designated collection bags.

●Burnable/Non-burnable garbage designated collection bags
The handle portion has embossed processing (3 rows), and the outer packaging has a single hole punched in the upper right.

●Raw garbage designated collection bags
The handle portion has embossed processing (1 row), and the outer packaging has two holes punched in the center of the bottom section.

<Burnable/Non-burnable garbage> <For raw garbage>

Designated collection bags are sold at the designated stores.

●Designated collection bags are sold as a set of 10 bags.

●The sticker is a mark to identify stores that sell designated collection bags. See the list of stores on pages 42-43 (stores marked with ●).

Sticker

About the use of fees

The fee income (from designated collection bags) is specifically allocated to waste treatment-related projects aimed at waste reduction, resource recovery, recycling promotion, community beautification, and public awareness.

Exemption system

The waste disposal fee is based on the principle that users should pay fairly according to the amount of waste they produce, but as a burden reduction measure, households meeting the following requirements will receive a certain number of designated collection bags upon application. For the application method, etc., contact the Recycling and Waste Management Division.

- Households on welfare
- Residential tax-exempt households in which there is a person who receives Physical Disability Certificate (Class 1 or Class 2)
- Residential tax-exempt households in which there is a person who receives Mental Disability Certificate (Class 1)
- Residential tax-exempt households in which there is a person who receives Rehabilitation Certificate (A1 or A2)
- Households receiving Child Rearing Allowance
- Households receiving Special Child Rearing Allowance

* Even if more than one requirement has been satisfied per household, additional designated collection bags will not be provided.

[Distribution quantity]

Maximum distribution		Burnable/Non-burnable garbage	Raw garbage
	Households of 2 or more	10 liter bags × 120	10 liter bags × 120
	Single-person households	5 liter bags × 120 or 10 liter bags × 60	3 liter bags × 120 or 10 liter bags × 60

Waste collected by voluntary cleanup activities Free of charge

Waste generated as the result of community's cleanup or the voluntary cleanup activities of public areas, such as roads, garbage collection spots etc., is collected free of charge. By advance application, the necessary number of "collection bags for voluntary cleanup activities" will be distributed.

⚠These bags cannot be used for cleaning up rule-violating waste.

The available size of collection bags for voluntary cleanup activities

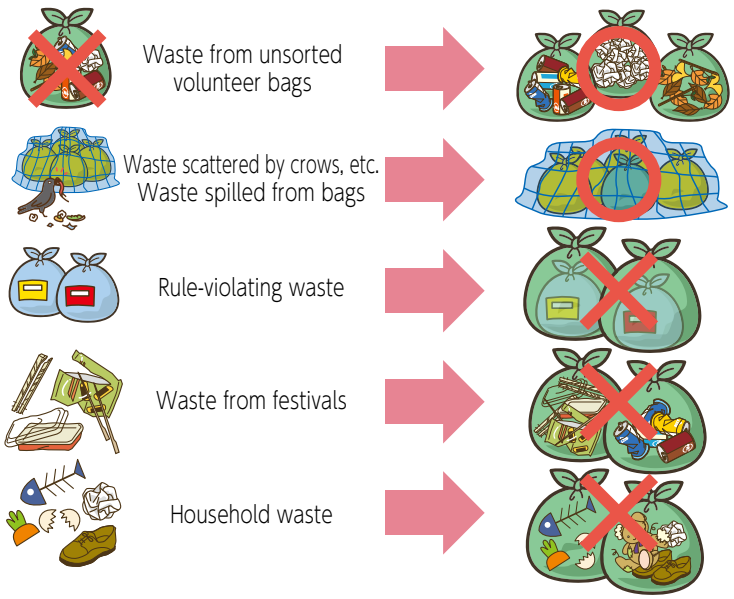

Two types: 45 liter bags (square flat bags) and 20 liter bags (shopping bag style with handles). The necessary number of bags will be provided upon prior application.
For the application method, etc., contact the Recycling and Waste Management Division.

45 liter bag

20 liter bag

Way of disposal

- Sort generated garbage according to types of waste and put it out on the appropriate collection days.
- On occasions, such as simultaneous big cleanups in the community which result in generating a large amount of waste, notify in advance the Environmental Clean Center as to the date of the cleanup and location.
- Location of garbage disposal must be a garbage collection spot.

To promote waste reduction and recycling, sort even waste collected during volunteer cleanups.

These bags can be used for scattered waste at garbage collection spots (waste scattered by crows, etc., waste spilled from bags, etc.).

⚠These bags cannot be used for cleaning up rule-violating waste.
Rule-violating waste is marked with violation stickers and left for a certain period to make the disposer aware of and correct their violation.

⚠These bags cannot be used for waste from community association events.
These bags cannot be used for waste from festivals or community association events.

⚠These bags cannot be used for household waste.
These are to be used for waste collected during volunteer cleanups of public places. Cannot be used for household waste.

Burnable garbage

Twice a week | Charged | Designated collection bag

- Put the garbage in a designated collection bag and put it out at the designated garbage collection spot by 8:30 in the morning on collection days. (The garbage is collected on holidays as well except for the year-end and New Year holidays.) Designated collection bags from outside Zushi City cannot be used.
- Separate from raw garbage. "Burnable garbage" and "raw garbage" will be collected on the same day. To prevent mixing of bags, place them on opposite sides of the garbage collection spot.

* Items other than those specified on page 9 having the longest side that measures 50 cm or more are bulky waste. For items which the length of each side is less than 50 cm that do not fit in a 40 liter designated collection bag, see page 9 for disposal method.

Typical items

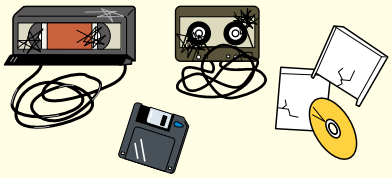

Disposable chopsticks, toothpicks, skewers for yakitori, ice cream sticks, aluminum foil

Fibrous vegetable peels and husks (bamboo shoot sheaths, corn husks, etc.)

Cassettes, videotapes, CDs, MDs, DVDs, records, floppy disks

⚠They can be collected at a designated collection base free of charge. (Page 23)

Plastic wrap

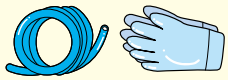

* Household plastic wrap for storage are collected as burnable garbage, while packaging for fresh food and lunch boxes are collected as plastic containers and packaging

Leather products

Rubber and vinyl products

* Cut hoses to less than 1 m

Drying agents, refrigerants, disposable pocket heaters

Wet fabrics, unwashed fabrics/clothes

⚠If washed and dried, they can be collected as fabrics free of charge. (P17)

Stuffed toys, cushions, padded clothes

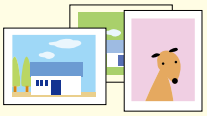

Cooking oil

* Absorb with cloth or paper, or solidify with a coagulant.

⚠They can be collected at a designated collection base free of charge. (Page 23)

Photos, tissues, and other non-recyclable paper items

* See page 16 for details.

Plastic products (except for plastic containers and packaging)

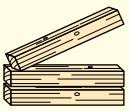

* For plastic containers and packaging, see page 11.

Artificial grass, leaves and plants, such as New Year ornaments, Christmas trees, Christmas wreaths, etc.

⚠They are not collected as grass/leaves/gardening waste.

Lumber, pieces of wood (less than 3 cm in diameter and 50 cm in length)

* Up to 3 bags (bundles) at a time
* Construction and demolition waste cannot be collected.

⚠They are not collected as grass/leaves/gardening waste.

Composite products made of plastic and metal, etc.

⚠Items with more metal than plastic parts are non-burnable garbage or household metal waste. Check the list of garbage and recyclable items to be sorted on pages 29 to 41.

Pet disposable diapers, pet litter sheets

⚠They cannot be collected as disposable diapers collected free of charge.
* Flush pet excrement down the toilet.

Disposable diapers are collected free of charge.

To support child rearing households and households who have a member in need of nursing care, disposable diapers are collected without using designated collection bags.

Item	Way of disposal	Note of caution
Disposable diapers Incontinence pads  Those that were used in general households	●Remove bodily waste, and put disposable diapers only in a transparent or semi-transparent bag (up to 45L) for disposal. ●Diapers for children or adults are regarded as the same for disposal.	●Do not combine other garbage in the same bag that contains disposable diapers. ●If garbage and disposable diapers are contained in the same collection bag, it will not be collected. ●Use a designated collection bag to dispose of disposable diapers for pets. ●Disposable diapers disposed of by hospitals and care facilities are considered to be garbage from businesses.

Raw garbage

Twice a week | Charged | Designated collection bag

- Put the garbage in a designated collection bag and put it out at the designated garbage collection spot by 8:30 in the morning on collection days. (The garbage is collected on holidays as well except for the year-end and New Year holidays.) Designated collection bags from outside Zushi City cannot be used.
- "Raw garbage" and "Burnable garbage" are collected on the same day. To prevent mixing of bags, place them on opposite sides of the garbage collection spot.
- Collected raw garbage will be composted. Do not include anything other than raw garbage.
  * Raw garbage in water drain nets or small bags can be placed directly into the designated collection bag without removing them from the nets or small bags.
  ⚠Please do not use multiple layers of bags.
- Drain excess water well and **tie the collection bag securely**.

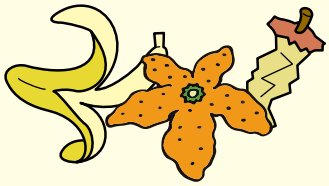

Typical items

Vegetable waste (peels/cores)

⚠Fibrous peels and husks (bamboo shoot sheaths, corn husks, etc.) should be put out as "burnable garbage," as the fibers become entangled in the machinery.

Fruit peels, seeds

Spoiled food

Leftovers

Meat, fish

Coffee grounds/beans, used tea leaves

Solid seasonings, sugar, salt

Raw garbage includes food scraps, cooking scraps, leftovers, and other items that were once food.
- Please cooperate in reducing food loss and raw garbage output.
- For the Subsidy System for Purchasing Household Raw Garbage Disposal Containers, see page 27.

Items that can be collected as either "Raw garbage" or "Burnable garbage"

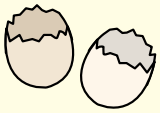

Shells

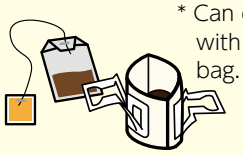

Crustacean shells (crab, shrimps)

Eggshells

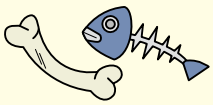

Tea bags, drip coffee bags

* Can dispose with filters or bag.

Bones (fish bones, spare rib bones, chicken bones, etc.)

Households that process raw garbage at home using raw garbage processing containers may find that their raw garbage is limited to items like shells and bones that take longer to process for recycling. With priority given to home processing of raw garbage, these items can also be collected as burnable garbage as a consideration for households that process raw garbage at home.

Caution Items that cannot be collected as raw garbage ➡Dispose of it on the collection day for "burnable garbage."

Be careful not to allow these items to mix in small bags in the sink to make it easy to sort garbage.

⚠ Collected raw garbage will be composted. Do not include anything other than raw garbage.

Ice cream sticks, yakitori skewers Disposable chopsticks, toothpicks

Aluminum foil

Plastic wrap

* Household plastic wrap for storage are collected as burnable garbage, while packaging for fresh food and lunch boxes are collected as plastic containers and packaging.

Cooking oil

Newspapers (used for draining raw garbage)

Kitchen paper, paper towels

Bamboo shoot sheaths Corn husks

Pharmaceuticals

Cigarettes

Pet food

Ikebana (flower arrangement)

Non-burnable garbage

Once a week | Charged | Designated collection bag

●Put the garbage in a designated collection bag and put it out at the designated garbage collection spot **by 8:30 in the morning** on collection days. (The garbage is collected on holidays as well except for the year-end and New Year holidays.) Designated collection bags from outside Zushi City cannot be used.

Typical items

Chinaware

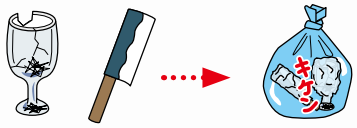

Glass tableware, glass containers

Soiled bottles, cans

⚠ Empty the contents.
Be sure to remove the cap.

⚠ For broken chinaware, glass products, or sharp metal objects like blades, wrap them securely in paper before placing in the designated collection bag, and be sure to mark "Danger" on it.

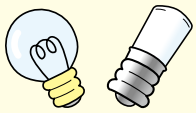

Mirrors, sheet glass

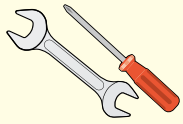

Small metal pieces (screws, clips, etc.)

Incandescent/LED light bulbs

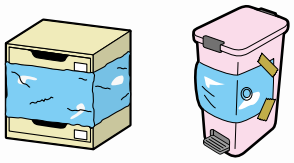

Tools

Items that do not fit in the designated collection bag

For burnable or non-burnable garbage that does not fit in designated collection bags, dispose of as follows:

⚠ **An item having the longest side that measures 50 cm or more is considered to be a bulky waste.** (Page 21)

Way of disposal		Note of caution
• Attach a 40 liter designated collection bag visibly. • Put them out on the "non-burnable garbage" collection days.		• Do not mix with other waste. • Empty containers such as buckets or wastebaskets before disposal. • Items will not be collected if bags other than 40 liter bags are attached.

Lumber, pieces of wood

Cut to specified thickness and length, then either place in a designated collection bag or tie into bundles and wrap with a designated collection bag (size that can be wrapped around) before disposal.

* Up to three bundles (bags) per household at a time.
* Construction and demolition waste cannot be collected.

⚠ They cannot be collected as grass/leaves/gardening waste. (They cannot be recycled due to paint, nails, etc.)

- When the diameter is between 3 cm and 15 cm, cut the item into pieces shorter than 1 m.
- When the diameter is between 15 cm and 20 cm, cut the item into pieces shorter than 80 cm.
- When the diameter is between 20 cm and 30 cm, cut the item into pieces shorter than 30 cm.
- Wrap with a designated collection bag.

Designated items

The following designated items, even if longer than 50 cm, can be collected on non-burnable garbage collection days by wrapping with a designated collection bag rather than as bulky waste.

* Use a designated collection bag that can be wrapped around the outside circumference.

Way of disposal	Item	Note of caution
• Bundle up to 5 items together and wrap with a designated collection bag (of a size that can be wrapped around). 	Umbrellas, canes, brooms, rakes, mops, deck brushes, shovels, gardening stakes, tension rods, floor cleaning wipes, carpet rollers, fishing rods, bamboo swords, wooden swords, tennis/badminton rackets, baseball bats, gateball sticks, ski poles, golf clubs, crutches, walking sticks, hoes, spades, toilet plungers, long-handled pruning shears, tripods.	• Only designated items are accepted. • Up to 5 items of different types can be bundled together for disposal. • If they can be folded or bent to fit in a designated collection bag, they can be collected with other waste. • For umbrellas, if the fabric and vinyl are removed, the frame can be collected as household metal waste for free. (Page 18) Dispose of the removed umbrella fabric and vinyl as burnable garbage.

Hazardous waste

Every other week | Free of charge

●Put the waste in a transparent or semi-transparent bag (up to 45L) and put it out at the designated garbage collection spot by 8:30 in the morning on collection days. (The waste is collected on holidays as well except for the year-end and New Year holidays.)

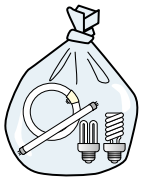

Please cooperate with sorting, as it is dangerous to mix with non-burnable garbage.

Spray cans, cassette gas cylinders

⚠ Use up completely and puncture holes in a safe place using safe tools.

Fluorescent tubes/compact fluorescent bulbs

⚠ Incandescent bulbs and LED bulbs are non-burnable garbage.

Dry cell batteries (alkaline/manganese) Small rechargeable batteries (lithium-ion batteries, etc.)

Ni-Cd Ni-MH Li-ion

Check for markings.

Coin cell batteries

These are batteries with type codes CR or BR.

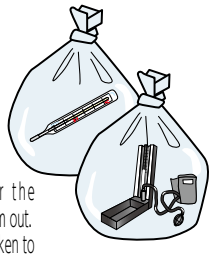

⚠ Please place tape over the electrodes before putting them out.

⚠ Button batteries should be taken to cooperating stores. (P26)

Mercurial thermometers, Mercurial blood pressure monitors

(Double-bag these items.)

Lighter

⚠ Use up completely before disposal.

- Be sure to use transparent or semi-transparent bags of 45 liters or less, and separate bags by item type so the contents are visible.
- For fluorescent tubes that do not fit in bags, wrap in paper and mark "Danger."
- Designated collection bases are also available for fluorescent tubes, compact fluorescent bulbs, batteries, small rechargeable batteries, mercury thermometers, and mercurial blood pressure monitors. (Page 23)
- Apply tapes to the electrodes of used batteries for insulation.

Caution

Fire occurred due to lithium-ion battery mixing

Small rechargeable batteries (nickel-cadmium batteries, nickel-metal hydride batteries, lithium-ion batteries) are hazardous waste. Never mix them with non-burnable garbage, plastic containers and packaging, or other waste.

Ni-Cd Nickel-cadmium batteries | Ni-MH Nickel-metal hydride batteries | Li-ion Lithium-ion batteries

PET bottles

Once a week | Free of charge

●Put the PET bottles in a transparent or semi-transparent bag (up to 45L) and put them out at the designated garbage collection spot by 8:30 in the morning on collection days.
(The bottles are collected on holidays as well except for the year-end and New Year holidays.)

PET

This mark is an indicator for sorting!

Only plastic bottles with the PET mark symbol can be collected as PET bottles.

Containers that were used to contain beverage, alcoholic beverage, soy sauce, processed soy sauce products, sweet cooking rice wine type products, vinegar, seasoning vinegar, and dressing-type seasoning (non-oil).

*** Plastic bottles without the PET mark should be cleaned and disposed of as "Plastic containers and packaging."**

①Remove caps and labels and dispose of them as plastic containers and packaging.

Be sure to remove caps and labels as they interfere with recycling.

②Empty contents and rinse with water.

③Flatten the PET bottle by stepping on the side.

④Place in a transparent or semi-transparent bag of 45 liters or less so the contents are visible.

* PET bottles which still have contents in them or are dirty will not be collected.
* Cut or modified PET bottles are collected as burnable garbage.

Plastic containers and packaging Once a week (every Wednesday) Free of charge

●Put the waste in a transparent or semi-transparent bag (up to 45L) and put them out at the designated garbage collection spot **by 8:30 in the morning** on collection days. (The items are collected on holidays as well except for the year-end and New Year holidays.)

This mark is an indicator for sorting!

Only plastic containers and packaging with the mark can be collected in this category.

◆Some items may have the mark on the outside of the package.◆

Explanation

"Containers" are items that hold products, and "packaging" is material that wraps products. Plastic containers and packaging are plastic containers or wrapping materials that become unnecessary after the contents are removed or used.

* Recycling costs for plastic containers and packaging are paid by businesses that attach plastic identification marks. (Some items like fruit nets, styrofoam packaging materials, and product wrapping films may not have marks due to their shape or other reasons.)

Typical items

⚠Carefully remove stains and dirt before disposing of these items.
If it cannot be cleaned, dispose of as burnable garbage.

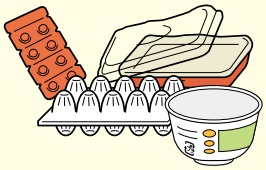

Check for the mark.

Plastic bottles for detergent, shampoo, etc.

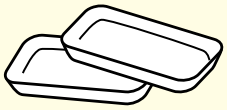

⚠Empty the bottle and remove the cap.

Plastic egg cartons, containers for instant foods

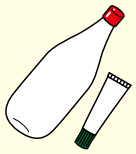

Trays for foods (tray-type containers)

Plastic bags from stores, bags and plastic wraps that packaged products

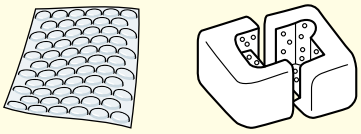

Tubes

⚠Be sure to remove the cap.

Cushioning materials

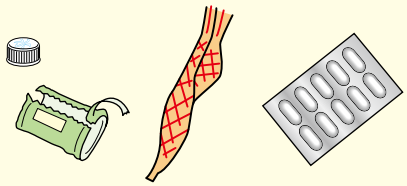

Styrofoam that contained fruits or home electric appliances

*If the item is large, cut it into pieces so that it fits in the bag (up to 45L).

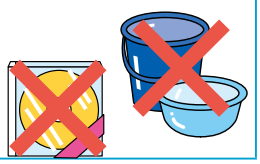

Other items

Labels attached to PET bottles, plastic caps, nets that packaged fruits, etc., and pill-type medication packaging.

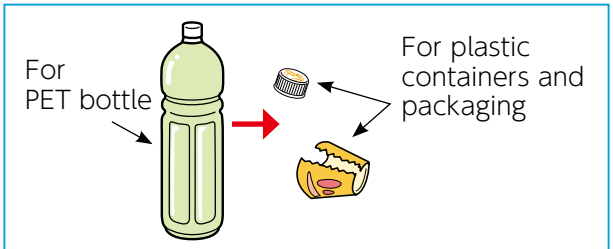

Caution Items that are not collected as "plastic containers and packaging"

Items without the mark.

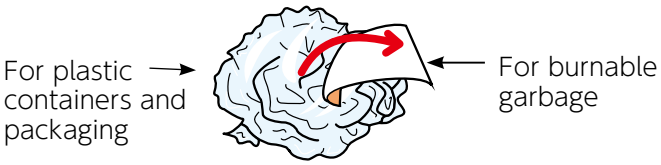

Manufactured products or those used as tools * The mark is not attached.	Buckets, flowerpots, airtight containers, storage bags, toys, pens, sponges, straws, plastic spoons and forks, tooth brushes, CDs and DVDs, beanbags, etc. 	→ Dispose of them as **burnable garbage**. * CDs and DVDs are considered to be recyclable items and collected at a designated collection base free of charge. (P23)
Plastic bottles with the PET mark attached	Containers that were used to contain beverage, alcoholic beverage, soy sauce, processed soy sauce products, sweet cooking rice wine type products, vinegar, seasoning vinegar, and dressing-type seasoning (non-oil) 	→ Dispose of them as **PET bottles**.
Items that are not acceptable even if the mark is attached.	Dirt or stains cannot be removed.	→ Dispose of them as **burnable garbage**.
	Home health nursing bags (IV solution, urine collection, CAPD, nutritional solution bags, etc.) * When disposal instructions are indicated by medical institutions, take the item to a medical institution.	

Way of disposal of plastic containers and packaging

❶ Remove caps, labels, and stickers from plastic containers and packaging.

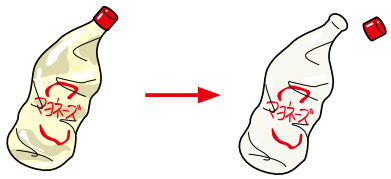

PET bottles

Plastic wraps that packed groceries

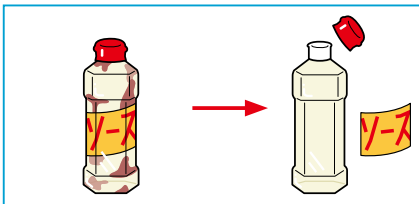

❷ Wash it and carefully to remove dirt and stains.

When it is dirty, it is considered to be garbage.

When it becomes clean by washing, it is considered to be a resource.

Mayonnaise containers

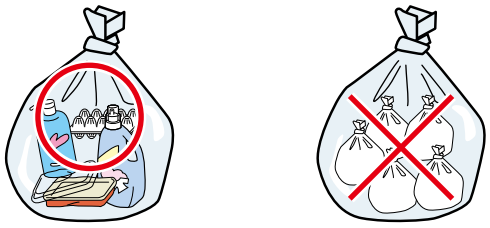

When it is dirty, it is considered to be garbage.

When it becomes clean by washing, it is considered to be a resource.

Sauce bottles

- Carefully remove stains and dirt before disposing of these items. If they cannot be cleaned, dispose of as burnable garbage.
- Always remove lids and caps.
- Labels and stickers that are difficult to remove can be left on.

❸ Put the garbage in a transparent or semi-transparent bag (up to 45L) and put it out for disposal.

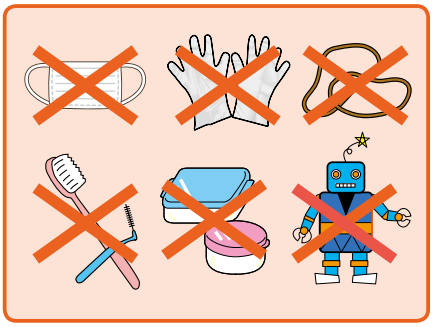

Do not double bag to put a bag within a bag.

The bag-breaking machine at the waste management facility in the Environmental Clean Center opens the bags to check the contents. Doubled bags may not break properly in the machine, which hinders recycling, so your cooperation is appreciated.

Many cases of violating plastic containers and packaging disposal rules have occurred.

⚠ Injury accidents have occurred due to syringes mixed-in. Return syringes to the medical institution where you received them.
⚠ Heating accidents have occurred due to button batteries and lithium-ion batteries. Never include button batteries or lithium-ion batteries.

Numerous rule violations have been found among plastic containers and packaging disposed of at garbage collection spots. Foreign matter interferes with recycling. Please strictly follow the rules.

Masks, gloves, rubber bands, toothbrushes, interdental brushes, plastic airtight containers, toys, and other merchandise

PET bottles

Knives, syringes, batteries, drying agents (quicklime, etc.) that are inserted in a package of seaweed

All of these are rule violations. Do not dispose of these items on the collection days for "plastic containers and packaging".

* Knives, syringes, batteries, and drying agents (quicklime) may cause bodily injuries or fires. Do not include those items for disposal.

Glass bottles

Every other week (Wednesday) **Free of charge** * Also collected at collection bases.

Bottles that contained alcoholic beverage, vinegar, instant coffee, soft drinks, tonic drinks, jam, bottled foods, and cosmetic products, etc.

- Put the bottles in a transparent or semi-transparent bag (up to 45L) and put them out at the designated garbage collection spot **by 8:30 in the morning** on collection days. (The bottles are collected on holidays as well except for the year-end and New Year holidays.)
- **Way of disposal**
  - Empty the bottle and rinse it with water.
  - Remove caps. Metal bottle caps are collected as household metal, and plastic bottle caps are collected as plastic containers and packaging.
  - Wrap broken bottles with paper and clearly mark "Danger" on top of it. Then, put them out as glass bottles at a garbage collection spot.

Caution **Items that will not be collected**

~~Glass tableware, glass containers, chinaware, mirrors, sheet glass~~ → Put them out on the "non-burnable garbage" collection days.

~~Fluorescent tubes, bulbs, mercurial thermometers~~ → Put them out on the "hazardous waste" collection days.

⚠Bottles which still have contents in them or are dirty will not be collected.

Bottles with the ® (returnable) mark are reusable bottles that can be washed and reused. To promote reuse, return them to the store where they were purchased.

Leaves, grass, gardening waste

Every other week **Free of charge**

- Put the waste out at the designated garbage collection spot **by 8:30 in the morning** on collection days. (The waste items are collected on holidays as well except for the year-end and New Year holidays.)

Item	Way of disposal	Note of caution
Grass, leaves 	• Up to three bags at a time per household • Remove dirt and soil, and put the waste items in a transparent or semi-transparent bag (up to 45L).	Caution Artificial grass, leaves and plants, such as New Year ornaments, Christmas trees, Christmas wreaths, etc. are not collected as leaves, grass, gardening waste. Dispose of as burnable garbage or bulky waste depending on size.
Gardening waste 	• Up to three bundles (bags) at a time per household • Cut the waste items into a size within the designated thickness and length, tie them together with a string, and put them out for disposal. • When the diameter is less than 15 cm, cut the item into pieces shorter than 1 m. • When the diameter is between 15 cm and 20 cm, cut the item into pieces shorter than 80 cm. • When the diameter is between 20 cm and 30 cm, cut the item into pieces shorter than 30 cm. * If the item is larger than the above size, it is considered to be a bulky waste.	• Do not include soil, stones, paper scraps, gardening supplies, or other foreign matter. Items containing foreign matter will not be collected. • Depending on size, boards, lumber, and wooden products are considered to be burnable garbage (page 7), non-burnable garbage (page 9), or bulky waste (page 21). • When tree branches are pruned by a professional, ask the professional to dispose of the branches. • The size of a bundle is considered to be the quantity that can be carried by one hand.

Small appliances

Every other week **Free of charge**

- **Electrically- or battery-operated home electric appliances which the length of each side is less than 50 cm** are considered to be small appliances and collected at the garbage collection spot.
- Put the appliances in a transparent or semi-transparent bag (up to 45L) and put them out at the designated garbage collection spot **by 8:30 in the morning** on collection days. (The items are collected on holidays as well except for the year-end and New Year holidays.)
- An appliance having the longest side that measures 50 cm or more is considered to be a bulky waste. (Page 21)
- Please remove the batteries (battery packs, etc.).(Items with non-removable batteries may be put out as they are.)
- Do not include anything other than small appliances. Items containing things other than small appliances will not be collected.
- Do not place in boxes. Remove packaging vinyl and styrofoam.

Caution Do not disassemble. Disassembled items will not be collected.

★Specified items that can be collected in a dedicated collection box for small appliances★

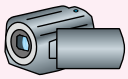

Specified items can also be collected in small appliance collection boxes installed at public facilities. To efficiently recycle specified items that contain many rare metals (rare metals/rare earth), please cooperate with collection box disposal.

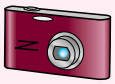

* If a specified item is too large to fit in the slot (30 cm×15 cm) of the collection box, put it out at a garbage collection spot on the specified item collection day.

Cell-phones, PHS

Smartphones, tablet terminals

Gaming consoles (portable, stationary-type)

Portable video cameras

Digital cameras, film cameras

Calculators

Personal hygiene devices (electric shavers, electric toothbrushes, hair dryers, etc.)

Telephones, fax machines

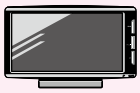

IC recorders

Electric dictionaries, e-book readers

Radios

Portable audio equipment

Portable DVD, CD, MD players

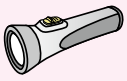

Portable car navigation systems, ETC in-vehicle units

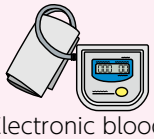

Auxiliary storage devices (hard disks, USB memories)

Tape recorders

Accessories(electric cords, remote controllers, AC adapters, battery chargers, etc.)

Flashlights

Electronic blood-pressure gauges

Electronic thermometers

Electronic clocks, electric clocks

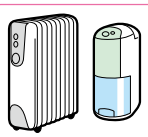

★List of locations where dedicated collection boxes for small appliances are installed

Facility	Access time
City Hall	8:30 - 17:00 (every day except for Saturday, Sunday, holiday, and the year-end and New Year holidays)
Civic Center	9:00 - 21:00 (every day except for the year-end and New Year holidays and facility closed days) ※Sundays until 18:00.
Community Center for the Numama Elementary School district	9:00 - 17:00 (every day except for the year-end and New Year holidays and facility closed days)
Zushi City Society of Commerce and Industry Hall	8:30 - 17:15 (every day except for Saturday, Sunday, holiday, and the year-end and New Year holidays)
Zushi City Senior Center	9:00 - 17:00 (every day except for Saturday, Sunday, holiday, and the year-end and New Year holidays)
Zushi Arena	9:00 - 21:00 (every day except for the year-end and New Year holidays and facility closed days)
Community Center for the Kotsubo Elementary School district	9:00 - 17:00 (every day except for the year-end and New Year holidays and facility closed days)

Dedicated collection box for small appliances (30 cm×15 cm)

Note of caution

- Once you have deposited an item in the collection box, the item cannot be returned to you.
- If personal information is included on an item, delete it.
- Remove bulbs from lighting equipment.
- Remove oil from oil fan heaters.

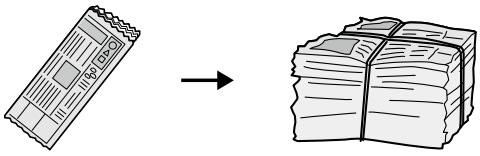

⚠Regardless of the size, oil heaters and dehumidifiers are considered to be "bulky waste" because oil or refrigerant gas must be removed.

- Personal computers, air conditioners, televisions (cathode-ray tube type, liquid crystal type, plasma type, organic EL type), refrigerators, freezers, washing machines, and clothes dryers are not considered to be small appliances. (Page 25)

● For recyclables subject to group resource collection, the items collected differ by area, week, and day of the week. Please see P19 and 20 for collection days.
● Please put them out at the location designated by your area by 8:30 AM on the day of collection. (Collection is also carried out on public holidays, except during the year-end and New Year period.)
⚠At garbage collection spots, please place newspapers, magazines, cardboards, drink packs, Paper item ("mixed paper"), fabrics, aluminum cans, steel cans, and household metal separately from one another. They are collected by items.

Newspapers

Free of charge **Group resource collection**

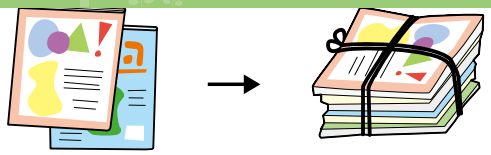

* Advertisement inserts can be included.

- Securely tie them by a paper string.
- **Do not use a vinyl bag.**
- Do not use packing tape when tying them.

Magazines

Free of charge **Group resource collection**

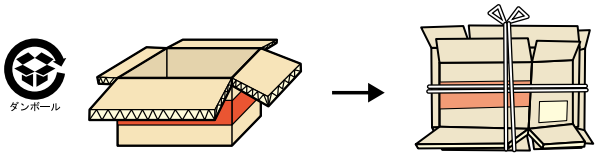

Weekly magazines, paperback books, independent books, catalogs, etc.

- Securely tie them by a paper string.
- Remove supplements made of material other than paper, for example, sample products, ironing print paper, stickers, etc.
- Staples can remain attached.
- **Do not use a vinyl bag.**

Cardboards

Free of charge **Group resource collection**

- Securely tie them by a paper string.
- Remove adhesive tape, shipping labels, carbon paper, etc. (→Dispose of removed items as burnable garbage)
- Staples can remain attached.
- **Do not use a vinyl bag.**

Drink packs

Free of charge **Group resource collection**

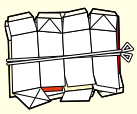

①Rinse the paper carton with water. (To prevent bad smell)

②Cut it to open flat and dry it. (To prevent molding)

③Securely tie them by a paper string.

Do not use a vinyl bag.

This mark is an indicator for sorting!

A roll of toilet paper can be made from six 1L-paper cartons.

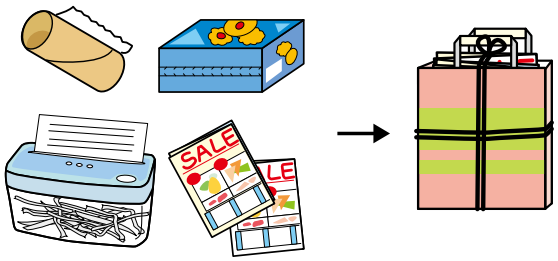

* Dispose of paper cartons coated with aluminum inside as burnable garbage.
* Remove the plastic pour spout and dispose of it as plastic containers and packaging waste.
* Small paper cartons and broken or cut paper cartons can also be recycled.

Drink packs like milk cartons marked with the 紙パック mark have been made such that coating material can be easily removed in the recycling process.

⚠Paper containers without the 紙パック mark, such as yogurt containers, ice cream containers, and paper cups with thick waterproof coating on the inside, cannot have the coating easily removed. As this interferes with recycling by causing spots in recycled products, dispose of these as burnable garbage. (Note that the 紙 mark may be displayed on paper containers containing materials other than paper, so it is not an accurate indicator of recyclability.)

Paper item ("mixed paper") Free of charge Group resource collection

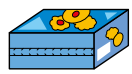

- Flatten paper boxes.
- Put the waste items in a paper bag, securely tie the top of the bag by a paper string, and put it out for disposal.
- **Do not use a vinyl bag.**

* When you do not have a paper bag, use newspaper and make a bag for disposal.

⚠Do not use packing tape or glue which would inhibit recycling operation.
Staples can be used.

Items that can be collected as Paper item ("mixed paper") Most paper can be recycled!

Paper boxes

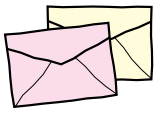

Handouts

Wrapping paper

Notepad paper

Shredded paper

Hard cores of toilet paper

Direct mails

Paper bags

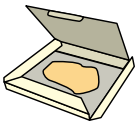

Non-reusable paper (dispose of it as burnable garbage)

⚠Some paper products are not reusable even if the 紙 mark is attached.

①Soiled paper

Paper that has been directly in contact with food and soiled with oil, etc.

Pizza boxes

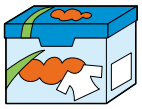

Soiled tissues

②Paper with odors

Paper boxes or wrapping paper that contained strongly scented products

Detergent box

Soap box

Incense box

③Specially processed paper

<Waterproof coated paper>

Yogurt cups

Ice cream cups

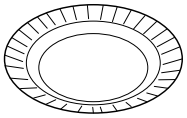

Paper cups

Cup noodle containers

Paper plates

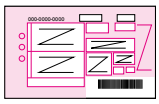

<Paper with non-paper materials that cannot be easily separated>

Receipt (thermal paper)

Delivery slips (carbon paper)

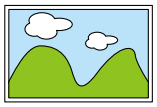

Aluminum-lined paper cartons

Photographic paper

Photograph paper

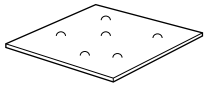

Pressure-sealed postcards

Sublimation transfer paper
Iron-on printing paper for printing patterns on fabric with heat, and fillings in bags and shoes made with used sublimation transfer paper

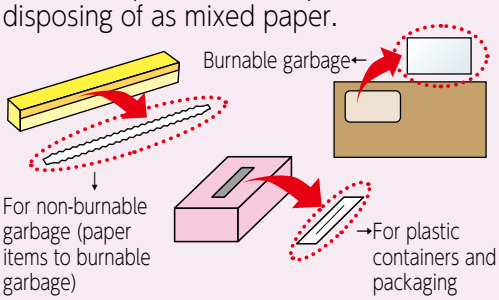

Thermal expansion paper (paper that rises when heated)

Non-carbon paper

Remove plastic from tissue boxes, cellophane from windowed envelopes, and cutter parts from wrap boxes before disposing of as mixed paper.

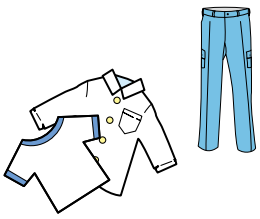

Reasons why items cannot be collected as paper item

- Paper with soil or odor
  →They cannot be removed during the recycling process, resulting in soiled or odorous recycled products.
- Thermal paper
  →This kind of paper reacts to heat during the recycling process, causing spots, etc.
- Sublimation transfer paper
  →Red or blue spots gradually appear on recycled products.
- Carbon paper, non-carbon paper
  →Ink is difficult to remove during the recycling process, resulting in spots, etc.
- Thermal expansion paper
  →This kind of paper creates unevenness on the surface of recycled products.

Fabrics

Free of charge **Group resource collection**

- Please place them in a transparent or semi-transparent bag of 45 liters or less and put them out at the garbage collection spot designated by your area by 8:30 AM on the day of collection.
- Wash dirty fabrics and dry them before disposal. (If stains cannot be removed, dispose of as burnable garbage)
- Do not dispose of them on rainy days.
  (If they are wet, mold will develop and they cannot be reused. If rain is expected before collection, please wait and use the next collection date.)

Items that are not acceptable as recyclable fabrics

~~Torn fabrics, dirty fabrics, fabrics that contain cotton or feather padding, futon, blankets, cushions, carpets, doormats, stuffed toys, balls of yarn, leather products, shoes, curtains~~ ---▶ Dispose of it on the collection day for "burnable garbage."

* Cut large items to less than 1 m and place in designated collection bags.
Futons and carpets that are not cut become bulky waste.

Aluminum cans

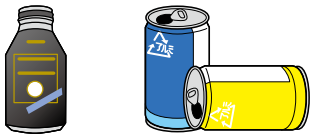

Free of charge **Group resource collection**

⚠**Separate aluminum cans from steel cans.**

- Please place them in a transparent or semi-transparent bag of 45 liters or less and put them out at the garbage collection spot designated by your area by 8:30 AM on the day of collection.

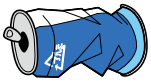

This mark is an indicator for sorting!

Soft drink cans, beer cans, beverage aluminum bottles (including aluminum caps) etc.

- Empty the can and rinse it with water.
- Try to flatten the can.
- Cans can be accepted even if they have an odor.

Items that are not acceptable as "aluminum cans"

Inner lid of yogurt cup

Aluminum foil

Cheese packaging paper

---▶ Dispose of it on the collection day for "burnable garbage."

Steel cans

Free of charge **Group resource collection**

⚠**Separate steel cans from aluminum cans.**

- Please place them in a transparent or semi-transparent bag of 45 liters or less and put them out at the garbage collection spot designated by your area by 8:30 AM on the day of collection.

This mark is an indicator for sorting!

Food cans (canned food), snack cans, seaweed product cans, powdered milk cans, coffee cans, salad oil cans, tea leaf boxes, steel lids, etc.

- Empty the can and rinse it with water.
- Remove items contained in snack cans and seaweed product cans, as well as plastic lids or caps and spoons provided in powdered milk cans.

Items that are not acceptable as "steel cans"

Paint cans

Gasoline containers

--▶ Dispose of them on the collection day for "non-burnable garbage."

Spray cans

Cassette gas cylinders

--▶ Dispose of them on the collection day for "hazardous waste."

Household metal

Free of charge **Group resource collection**

- Please place them in a transparent or semi-transparent bag of 45 liters or less and put them out at the garbage collection spot designated by your area **by 8:30 AM** on the day of collection.

Typical items

Kitchen metalware such as frying pans, kettles, rice cooker's inner bowl, electric barbecue grill's plate (griddle), etc.

Tableware molded with iron, aluminum, stainless steel, etc. (including Teflon-coated or enamel products), tools, metal canteens, etc.

Wire hangers, metal framework of umbrellas (remove fabrics), shopping carts (less than 50cm)

- Household items mostly made of metal having **the longest side that measures less than 50cm and weighing less than 15kg**

* **Applicable items are indicated in the list of garbage and recyclable items to be sorted on pages 29-41.**

- When discarding metal refuse, remove as much nonmetallic substances attached as possible before discarding.

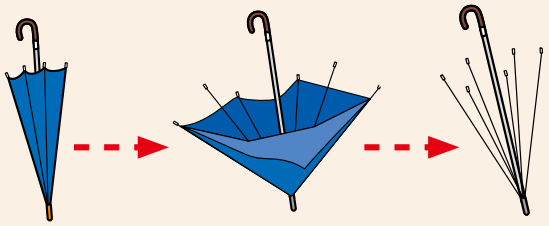

Way of disposing umbrellas

Remove fabrics and vinyl portions.

→Put out only the framework. (Fabrics and vinyl are burnable garbage.)

* If most of the umbrella is made of wood and plastic, it is considered to be non-burnable garbage.

* Items 50 cm or larger can also be collected. When items do not fit in bags, tie them with a string before disposal.

* If fabrics and vinyl portions are not removed, the umbrella is considered to be non-burnable garbage (designated item). (Page 9)

Items that are not acceptable as "household metal"

Dangerous items (knives, tacks, cutters of plastic wrap boxes)	Wrap it up with paper, mark "Danger", and dispose of it on the collection day for "non-burnable garbage."
Home electric appliances which the length of each side is less than 50 cm (toaster ovens, clothes irons, etc.)	Dispose of it on the collection day for "small appliances."
Items comprised of more non-metallic substances than metal (ballpoint pens, clothespins, binders, etc.)	Dispose of it on the collection day for "burnable garbage."

Group resource collection

In cooperation with neighborhood and community associations throughout the City, resource collection businesses registered with the City collect newspapers, magazines, cardboard, drink packs (beverage cartons), mixed paper, fabrics, aluminum cans, steel cans, and household metal discarded by households, thereby promoting waste reduction and recycling.

Collection days vary depending on your area of residence (pages 19-20). **Separate by type and dispose of at the designated collection location in your area.**

According to the amount of aluminum cans collected, recycle business operators will pay a purchase price to the neighborhood community associations.

Group resource collection schedule chart (by address)

⚠Separate by type and place at the designated location in your area by 8:30 AM.
⚠Items placed after collection or not properly sorted will not be collected.

Contact: Resources Recycling Division ☎046-873-1111

Bulky waste

Individual Collection (by appointment) **Charged**

⚠Items of commercial or professional use will not be collected.

Bulky waste	The longest side is between 50 cm and 1 m.	**600 yen** per piece
Oversized items of refuse	The longest side is more than 1 m.	**1,200 yen** per piece

* Some items which are larger than 50 cm can be collected on the non-burnable garbage collection day as "designated items."(page 9)
* Applicable items for bulky waste and oversized items of refuse are indicated in the list of garbage and recyclable items to be sorted on pages 29 to 41. If your item is not on the list, contact the Environmental Clean Center (**☎046-871-7870**).

❶ Apply for individual collection

There are two ways to apply: **by phone or electronic application.**

[Method 1] Making arrangements by telephone

* Measure the maximum length of each side of the bulky waste items before applying for collection.
* Those who are unable to apply by telephone should make inquiries by fax (046-873-9428) or other means.

●The Environmental Clean Center ☎046-871-7870
Business hours are: Monday to Friday (including holidays except for the year-end and New Year holidays) 8:15-17:00

- You will be asked to identify the type of bulky waste, quantity, length of the longest side, your address, name, telephone number, and a location of disposal in your site (entrance, inside the gate, parking lot, designated collection spot, etc.).
- You will be informed as to the collection day, the required number of "bulky waste tickets (certificate stamps)" and any other necessary information.

●Purchasing bulky waste tickets (certificate stamps)

⚠When applying through the e-kanagawa Electronic Application System, purchase is not necessary.

- Purchase the required number of bulky waste tickets (certificate stamps) at a Zushi City bulky waste ticket distributor (stores marked with ■ in the list of stores on pages 42-43). One bulky waste ticket costs 600 yen. Only 600 yen tickets are available.

* Even if the bulky waste ticket is not used, money will not be refunded, So, purchase tickets after you have made arrangements for disposal of bulky waste.
* Bulky waste tickets (certificate stamps) from outside Zushi City cannot be used.

[Method 2] Applying through the e-kanagawa Electronic Application System

For the application method visit the City website.

* When applying through the e-kanagawa Electronic Application System, the processing fee is paid through online payment, so there's no need to purchase bulky waste tickets (certificate stamps).

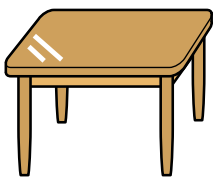

City website page number search 1002030

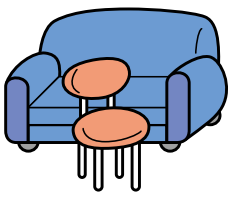

❷Put the bulky waste out in an outside location where you live

- Write down your name etc. in the "Name etc." column of the bulky waste ticket (certificate stamp) by using a permanent marker or ballpoint pen, and securely affix the sticker indicating [Bulky waste] to the bulky waste so that it can be easily seen. Keep your applicant copy until the items have been collected.
  ⚠When applying through the e-kanagawa Electronic Application System, you do not need to attach bulky waste tickets (certificate stamps). Visit the City website for disposal instructions.
- Collection time cannot be specified. Put out your items by 8:30 AM on the collection day.
- Collection begins at 8:30 AM and proceeds throughout the City in sequence. Collection may take place in the afternoon.
- You do not need to be present for collection. Items will be collected even if you are not home.
- Collection takes place even on rainy days. It is acceptable for bulky waste to get wet.

●Note of caution

- It takes a while from when an application is made until the waste collection day.
- Up to eight items can be collected at the same time.
- Do not place items in cardboard boxes. Dispose of cardboard boxes through group resource collection.

Waste drop-off

Charged

●You can bring waste directly to the Environmental Clean Center.

⚠**Waste generated outside the City cannot be brought in.** *** Vehicles for drop-off are limited to a maximum loading capacity of 3 tons or less and a total length of 5 m or less.**

Acceptance days	Reception hours (strictly observed)	Processing fee (cash payment, cashless payment)
Monday to Friday (including holidays) * Please inquire about the year-end and New Year holidays.	8:45～11:45 13:00～16:00 These are the reception hours at the weighing room. This is not the entry time.	350 yen per 10 kg (Payment cannot be made with paid designated collection bags or bulky waste tickets (certificates).)

⚠Important notes

●Waste generated outside the City cannot be brought in.

- Only household waste generated in the City and business municipal waste generated in the City can be brought in.
- Sort waste properly before bringing it in.
- Industrial waste cannot be brought in.

●Bring a "Waste Generation Document" (no specific format required).

* Waste cannot be brought in without a Waste Generation Document.

Information to include in the Waste Generation Document

①Date of bringing in waste
②Location where waste was generated
③Address, name (with seal), and phone number of the person disposing of the waste and the person bringing it in
④Type and amount of waste
⚠For business municipal waste, be sure to include the business name, contact information, and the name of the person bringing it in.

●Waste cannot be brought in by anyone other than the waste generator.

Only licensed municipal waste collection and transport service contractorsin Zushi City can transport other people's waste. If someone other than the waste generator (family member, etc.) is bringing in waste, contact the Environmental Clean Center in advance.

●Recyclable resources for group resource collection (newspapers, magazines, cardboards, paper drink packs, mixed paper, fabrics, aluminum cans, steel cans, household metal) cannot be brought in.

Group resource collection is a system which resource collection businesses registered with the City directly collect recyclable resources for recycling.
The waste management facility at the Environmental Clean Center cannot accept these items.
* Paper containing personal information cannot also be accepted.

●Other

- Do not bring waste in cardboard boxes or paper boxes. Take cardboard and paper boxes home and dispose of them through group resource collection.
- Some waste brought in may not be processed at the Environmental Clean Center, or may require pre-processing such as cutting or disassembly. Contact the Environmental Clean Center in advance.
- Future disposal may be refused if false declarations or prohibited waste is discovered.
- The waste generation site may be inspected.
- The person disposing of the waste or the person who brought in the waste may be contacted for verification.

* For more details, visit the City website.
(Waste Generation Document templates and examples are also available.)

Collection of recyclable materials at collection bases **Free of charge**

The following items (recyclables) can be collected at collection base boxes for recyclables installed at public facilities, regardless of the day of the week. For efficient recycling, please cooperate with collection base disposal.

⚠**Collection boxes are not garbage cans.** Do not put in garbage or soil them.

⚠**Place only recyclables in the collection boxes**, not in vinyl bags or wrapping paper.

⚠Do not put in small appliances, etc.

Item	Disposal rules
Waste ink cartridges (genuine products only) brother Canon EPSON hp	• Place only waste ink cartridges in the collection box, not in vinyl bags. • The four inkjet printer manufacturers listed in the item column are jointly collecting and recycling used ink cartridges. ⚠Waste ink cartridges from manufacturers other than the target manufacturers are not recycled by the manufacturers, so dispose of them as burnable garbage.
Waste fluorescent tubes 	• Be sure to remove packaging paper before disposal. • Dispose of incandescent bulbs and LED bulbs as non-burnable garbage. ⚠Do not put in broken items. (Wrap broken items with paper and mark "Danger" on the paper. Then, put them out as hazardous waste at a garbage collection spot.)
Mercury thermometers, blood pressure monitors 	
Waste cooking oil 	• Place in a PET bottle with the cap tightly closed before placing in the collection box. • Unused oil that has expired, etc., can be placed in the collection box without transferring to another container. ⚠Oils other than cooking oil (such as motorcycle oil) cannot be collected. Consult with retailers, etc.
Glass bottles 	• Remove caps. Metal bottle caps are collected as household metal, and plastic bottle caps are collected as plastic containers and packaging. • Rinse with water before disposal. ⚠Do not put in broken bottles. (Wrap broken bottles with paper and mark "Danger" on the paper. Then, put them out as glass bottles at a garbage collection spot.)
Batteries  Small rechargeable batteries Ni-Cd Nickel-cadmium batteries Ni-MH Nickel-metal hydride batteries Li-ion Lithium-ion batteries	• Place only batteries (alkaline, manganese) and small rechargeable batteries. ⚠Apply tape to the electrodes for insulation before disposal. ⚠Do not put in button batteries (excluding lithium coin batteries). * Button batteries are collected at retail stores. (Page 26)
CDs, DVDs, etc.* 	• Remove from cases and place as is. ⚠Dispose of the case on the collection day for "burnable garbage." * Targets are CDs, DVDs, MDs, FDs, MOs, records, videotapes, cassette tapes.

Collection locations and times

Facility	Access time
City Hall	8:00 - 17:15 (every day except Saturdays, Sundays, public holidays, and the year-end and New Year holidays)
Highland Community Center	9:00 - 16:00 (every day except Saturdays, Sundays, public holidays, and the year-end and New Year holidays)
Community Center for the Kotsubo Elementary School district	9:00 - 17:00 (every day except for the year-end and New Year holidays and facility closed days)
Community Center for the Numama Elementary School district	
Treatment and Education Center	24 hours (every day except for the year-end and New Year holidays)
Zushi Arena	9:00 - 18:00 (every day except for the year-end and New Year holidays and facility closed days)
Within Numama Green Hill	24 hours (every day except for the year-end and New Year holidays) * Excluding waste cooking oil
Childcare Support Center	9:00 - 17:00 (Monday to Saturday, except for the year-end and New Year holidays, afternoons of 3rd Mondays, 5th Saturdays, and holidays) * Excluding glass bottles and waste cooking oil
York Foods Higashi-Zushi Store (next to the Society of Commerce and Industry multi-level parking)	9:00 - 21:00 (every day except for the year-end and New Year holidays)
Within Minamigaoka Complex	24 hours (every day except for the year-end and New Year holidays)
Kotsubo Oyato Meeting Hall	
Hisagi Meeting Hall	

What happens to garbage and recyclables

* The processing route for recyclables may change.

Sorted waste	Intermediate processing		Recycling breakdown
Burnable garbage	Incineration	Incineration ash	Road base materials, etc.
Raw garbage	Fermentation, decomposition		Compost
Non-burnable garbage	Crushing, sorting	Iron materials	Construction steel materials, etc.
Hazardous waste: Cassette gas cylinders	Crushing, sorting	Iron materials	Construction steel materials, etc.
Hazardous waste: Spray cans	Crushing, sorting	Iron materials	Construction steel materials, etc.
Hazardous waste: Fluorescent tubes	Commissioned		Glass, aluminum, iron, mercury, fluorescent powder, etc.
Hazardous waste: Batteries	Commissioned		Iron, manganese, zinc, etc.
PET bottles	Sorting, compression		Fibers, sheets, bottles, molded products, etc.
Plastic containers and packaging	Sorting, compression		Pallets, recycled resin, civil engineering and construction materials, blast furnace deoxidizing materials, etc.
Glass bottles	Commissioned		Glass bottles, short glass fibers, paving aggregates, etc.
Leaves, grass, gardening waste	Crushing		Compost, chips
Leaves, grass, gardening waste	Commissioned		Compost, fuel, etc.
Small appliance	Commissioned		Iron, copper, gold, silver, rare metals, etc.
Newspapers	Group resource collection		Newspapers, weekly magazines, printing paper, etc.
Magazines	Group resource collection		Magazines, cardboard boxes, etc.
Cardboards	Group resource collection		Cardboard boxes, paper tubes, etc.
Drink packs	Group resource collection		Toilet paper, tissue paper, etc.
Mixed paper	Group resource collection		Confectionery boxes, picture books, toilet paper, etc.
Fabrics	Group resource collection		Clothing, exported overseas (reuse)
Aluminum cans	Group resource collection		Aluminum cans, auto parts, etc.
Steel cans	Group resource collection		Steel cans, construction steel materials, auto parts, etc.
Household metal	Group resource collection		Construction steel materials, etc.
Bulky waste	Crushing, sorting	Iron materials	Construction steel materials, etc.
Waste cooking oil	Commissioned		Biodiesel fuel, industrial product raw materials, etc.
CDs and cassette tapes	Commissioned		Plastic raw materials, etc.

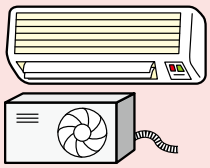

Items the City cannot collect or process

Recycling of 4 home appliance items

Under the Law for the Recycling of Specified Kinds of Home Appliances (Home Appliance Recycling Law), four items — air conditioners, TVs (CRT, LCD, plasma, OLED), refrigerators/freezers, and washing machines/clothes dryers — are being re-merchandized.

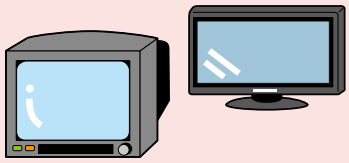

- When replacing……Request the retailer where you are purchasing the new item to take back the old one.
- When disposing unnecessary items……Request the retailer where you previously purchased the item to take it back.

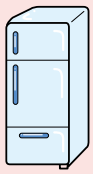

Target items

Air conditioners
500 yen~ (tax excluded)

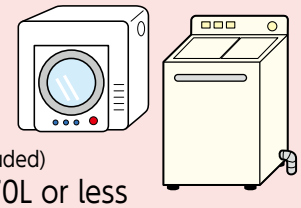

TVs (CRT/LCD/plasma/OLED)
2,200 yen~ (tax excluded)
TVs: 15-inch screen or smaller
1,200 yen~ (tax excluded)

Refrigerators and freezers
4,300 yen~ (tax excluded)
Internal volume 170L or less
3,400 yen~ (tax excluded)

Washing machines and clothes dryers
2,300 yen~ (tax excluded)

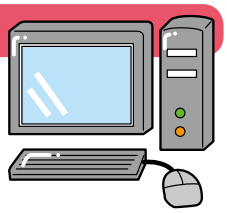

* The recycling fees shown are approximate figures as of July 2026. In addition, recycling fees may vary depending on the manufacturer.

Collection and transportation fees will be charged separately when requesting pickup.

- You can also transport items directly to designated collection sites. You can also pay the recycling fee with a home appliance recycling ticket (postal payment method) available at post offices and transport the item directly to the manufacturer's designated collection site. For details, contact the Home Appliance Recycling Ticket Center.

Home Appliance Recycling Ticket Center ☎0120-319-640 URL https://www.rkc.aeha.or.jp/

Computer recycling

Computers are collected and recycled by computer manufacturers and importers or the "PC 3R Promotion Association."

■Target devices

Desktop units, displays (CRT, LCD), laptop computers
* Standard accessories (keyboards, mice, cables, etc.) are also collected.

■Application method

❶When the manufacturer is known
Contact the manufacturer and apply for collection.
[Recycling fee]
・Computers sold after October 2003 No charge.
・Computers sold until September 2003 About 3,000 to 5,000 yen per unit.
Products with separate bodies and displays require recycling fees for each.

❷For self-built computers or when the manufacturer has gone out of business
Contact the PC 3R Promotion Association and apply for collection.
[Recycling fee]
About 4,000 to 6,000 yen per unit.

■Collection method

Post offices (excluding simple post offices) serve as collection points, and door-to-door collection by "Yu-Pack" is also available. For details, contact the respective manufacturer or the PC 3R Promotion Association.

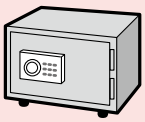

PC 3R Promotion Association ☎03-5282-7685 URL https://www.pc3r.jp/

Prohibited and difficult-to-process items

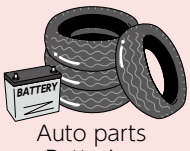

* These items cannot be collected by the City. Consult with retailers, disposal companies, or the Environmental Clean Center.
For waste generated from construction work, etc., request disposal from the contractor.

Main items

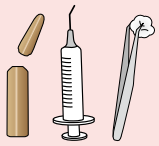

Pianos

Safes

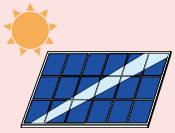

Button batteries

Auto parts
Batteries
Tires

Medical waste

Motorcycles

Solar modules
(solar panels)

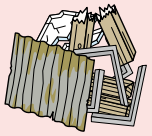

Gas cylinders
Fire extinguishers

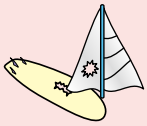

Paints
Waste oil and other liquids

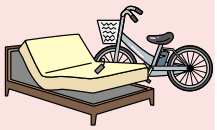

Agricultural chemicals, chemical products

Concrete blocks, bricks, stones, sand, soil

Construction waste

Yachts
Surfboards, etc.
FRP products

Electric beds
Electric bicycles

●Electric-assist bicycle batteries

Batteries only (bicycle frames not accepted)
JBRC (Japan Portable Rechargeable Battery Recycling Center) ☎03-6403-5673
URL https://www.jbrc.com/

●Fire extinguishers

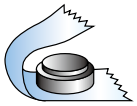

Japan Fire Extinguisher Manufacturers' Association (Fire Extinguisher Recycling Promotion Center)
Call center ☎03-5829-6773
Reception hours: 9:00 - 17:00 (excluding weekends, public holidays, and 12:00 - 13:00)
URL https://www.ferpc.jp/

●Motorcycles

To dispose of motorcycles, consult with the retailer or the Motorcycle Recycling Call Center.
If still usable, they are reused; if not usable, they are properly processed and recycled through the "Motorcycle Recycling System."
* Bicycles and motorcycle parts alone are not eligible.
Motorcycle Recycling Call Center ☎050-3000-0727
Reception hours: 9:30 - 17:00 (excluding weekends, holidays, the year-end and New Year holidays, etc.)
URL https://www.jarc.or.jp/motorcycle

●Button batteries

Take button batteries to cooperating stores. To prevent heating and fire caused by contact with other metals, apply tape to the electrodes.

・You can check button battery (excluding lithium coin batteries) collection cooperating stores at:
Button Battery Collection Promotion Center, Battery Association of Japan
Call Center ☎0120-266-205
Reception hours: Weekdays 9:00 - 17:00
URL http://www.botankaishu.jp/

* Since button batteries contained a very small amount of mercury, they are collected and properly processed by businesses (they became mercury-free in 2020). Coin cell batteries do not contain mercury, so they are collected by the City.

Button batteries		Coin cell batteries	
Silver oxide batteries (type code SR) Zinc-air batteries (type code PR) Alkaline button batteries (type code LR)	➡Take to cooperating stores	Lithium manganese dioxide batteries (type code CR) Lithium carbon monofluoride batteries (type code BR)	➡Put out as hazardous waste

⚠To prevent heating and fire caused by contact with other metals, apply tape to the electrodes.

●Home medical care waste

⚠ Needle-stick injuries from used syringes have occurred.
Items with needles cannot be collected by the City.
For safe collection of used syringes, return them to your medical institution or pharmacy.
* Home health nursing bags (IV solution, urine collection, CAPD, nutrition solution bags, etc. without needles) can be collected as burnable garbage. Even if they have the plastic mark, dispose of them as burnable garbage.

Items the City cannot collect or process

About business waste

Waste from not only profit-oriented businesses such as stores, companies, and offices, but also hospitals, social welfare facilities, schools, as well as waste from **local festivals, community association activities, and management associations of housing complexes is all classified as business waste**.

The Act on Waste Management and Public Cleaning (Waste Disposal Act) stipulates that businesses are responsible for handling their business waste themselves.

Business waste is divided into two types: **municipal waste** and **industrial waste**. The Waste Disposal Act stipulates that these must be managed at their respective waste management facilities, requiring sorting. **Industrial waste cannot be brought to the City's waste management facility (Environmental Clean Center).**

Businesses are also obligated to make efforts to reduce the waste generated by their business activities through reuse and recycling.

●Examples of business municipal waste

- Used tissue paper, paper that cannot be recycled
- Plant materials, wooden products
- Food leftovers, unsold food, cooking scraps

●Examples of industrial waste

- Steel desks from offices, batteries, light bulbs, fluorescent lights
- PET bottles, styrofoam, plastic packaging materials
- Empty cans, empty glass bottles

* Waste from businesses is not accepted at garbage collection spots. When small quantity waste producers use designated collection bags for disposal, they must put their names on the bags. However, industrial waste is not accepted.
* If you need to dispose of industrial waste, commission a contractor with a permit for industrial waste treatment. If you are looking for a licensed industrial waste disposal contractor, contact Resource Circulation Kanagawa (**☎045-681-2989**).

Subsidy system for purchasing household raw garbage disposal containers

To reduce raw garbage, which accounts for 30% or more of burnable garbage, the City provides subsidies for household raw garbage disposal containers, etc., and dispatches raw garbage experts (instructors in the use of disposal containers, etc.).

Eligible containers, etc. : Bacteria de Kiero, composter containers, EM support containers, electric raw garbage processors, and other household models

Subsidy amount : Regardless of purchase price, 4/5 of the purchase price up to a maximum of 30,000 yen will be subsidized. (Amounts less than 100 yen are rounded down)

Application method : Fill in the required information on the designated application form and bring it along with your receipt to the Recycling and Waste Management Division. (Applications are limited to 1 unit per household per fiscal year for non-electric processors, and 1 unit per household for electric processors, with reapplication possible 5 years after the fiscal year in which the subsidy was received). Application forms are available on the City website.

* Receipts must include the manufacturer name and model number of the purchased product.

1002122

●For those considering purchasing Bacteria de Kiero●

In October 2013, the City formed an agreement with the Zushi City Society of Commerce and Industry, making it easier to purchase Bacteria de Kiero. By processing your purchase at the Society of Commerce and Industry, you can buy at a price with the subsidy amount already deducted. The Kiero sold in the City used wood from forest maintenance associated with raising the elevation of flooded areas in Rikuzentakata City, and residents of temporary housing were involved in manufacturing, supporting disaster areas through job creation. Wood from Rikuzentakata City is still being used. For details, contact the Zushi City Society of Commerce and Industry (**☎046-871-2030**).

Devising ways to minimize raw garbage output is also important!

- Purchasing tips (buy only what you'll use)
- Cooking tips (don't peel edible vegetable skins, use up all ingredients)
- Storage tips (drain water, keep dry, avoid getting wet)

Other

Friendly collection

For elderly and disabled persons who have difficulty carrying waste to garbage collection spots, city employees (Environmental Clean Center staff) will collect garbage directly from doorsteps, and also check on residents' wellbeing with a greeting.

This service is available to those who meet any of the following criteria, cannot carry waste to garbage collection spots, and cannot get help from anyone close to them.

- Households consisting only of elderly persons (generally 65 years or older) who require daily assistance or nursing care
- Households consisting solely of persons with disabilities who require daily assistance or nursing care (those who have been issued a Physical Disability Certificate, a Mental Disability Health and Welfare Certificate, or a Rehabilitation Certificate)
- Pregnant women, injured persons, or households temporarily unable to dispose of garbage

For details, contact the Environmental Clean Center (☎046-871-7870).

About garbage collection spot subsidy programs

●Lending of garbage protective nets

Nets are available in two sizes, with one net lent per garbage collection spot for a period of three years.Please come to either the Recycling and Waste Management Division or the Environmental Clean Center. Fill out the designated application form at the counter, and you will receive the net on the spot. Please bring a carrier bag to take the net home.

●Lending of raw garbage containers

As a countermeasure against crows, the City lends out raw garbage containers to be used with a garbage protective net placed over them. Several sizes are available, so please contact the Environmental Clean Center (☎046-871-7870) in advance.

●Subsidy program for net boxes, etc.

To prevent waste scattering and damage from crows, etc., part of the cost of purchasing net boxes, etc., is subsidized. The subsidy amount is 20,000 yen for a new net box, etc., and 10,000 yen for a replacement.

For details, contact the Environmental Clean Center (☎046-871-7870).

Beware of illegal waste collection companies.

Problems have been reported throughout the prefecture involving malicious used item collectors who advertise free collection of unwanted items (waste) via light trucks or flyers, but then demand high fees at the time of collection.

Only collection and transport service contractors with permits based on the Act on Waste Management and Public Cleaning (page 27) can collect and transport waste. Using unlicensed companies is not only illegal but can also lead to problems such as high fee demands and illegal dumping, so never use them.

About illegal dumping

●Illegal dumping is a criminal act.

Such acts violate the Waste Management and Public Cleansing Act and are punishable by imprisonment of up to five years, a fine of up to 10 million yen, or both.

Note that waste illegally dumped on private property must be disposed of by the owner or manager. To prevent illegal dumping, take measures such as installing fences and regular mowing.

If you discover an illegal dumping site, note the characteristics of the dumper and the vehicle license plate, and report to the nearest police station or the Recycling and Waste Management Division. Refrain from directly confronting dumpers, as it may be dangerous.

●Ordinance amended (September 2014)

The "Zushi City Ordinance on the Reduction, Recycling, and Proper Disposal of Waste" sets forth provisions on the responsibilities of managers of land and buildings, etc., as a measure against illegal dumping. For details, please contact the Recycling and Waste Management Division.

Waste and recyclables sorting list

●Even when there are no notes in the remarks column, there are size and weight standards depending on the type of waste.
- "Small appliances" (free) are items which the length of each side is less than 50 cm
- "Household metal items" (free) are metal items which the length of each side is less than 50 cm and weighing less than 15 kg
- "Bulky waste" (paid) are items 50 cm or larger but less than 1 m in length on any side
- "Oversized items of refuse" (paid) are items 1 m or larger in length on any side

●For disposal methods of items marked as "Not collected," please inquire at the store of purchase, retailer, or Environmental Clean Center.

	Item name	Category	Notes
A	(Power) adapter	Small appliances	Preferably place in small appliances collection box. See P. 14.
	AC adapter	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Accessories (leather/wooden)	Burnable garbage	
	Accessories (metal)	Non-burnable garbage	
	Accordion curtain	Bulky waste	Oversized items of refuse if 1 m or larger.
	Accordion gate section	Bulky waste	Oversized items of refuse if 1 m or larger when folded.
	Adhesive tube (metal)	Non-burnable garbage	
	Adhesive tube (plastic)	Burnable garbage	
	Air conditioner (indoor/outdoor units)	4 designated home appliances	See P. 25.
	Air cooler	Small appliances	Only those without refrigerant. Bulky waste if 50 cm or larger.
	Air mattress	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Air pump (bicycle)	Non-burnable garbage	Household metal if manual pump and metal.
	Air purifier	Small appliances	Bulky waste if 50 cm or larger.
	Aluminum cans	Aluminum cans	Empty contents and clean. Non-burnable garbage if cannot be cleaned.
	Aluminum foil	Burnable garbage	
	Aluminum oil guard	Non-burnable garbage	
	Aluminum sash	Non-burnable garbage	Bulky waste if 50 cm or larger. Oversized items of refuse if 1 m - 2 m.
	Amplifier (audio/guitar)	Small appliances	Bulky waste if 50 cm or larger. Oversized items of refuse if 1 m - 2 m.
	Animal cage (metal)	Household metal	Bulky waste if 50 cm or larger.
	Animal cage (plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Antenna (TV/radio/wireless)	Bulky waste	Household metal if under 50 cm. Oversized items of refuse if 1 m or larger.
	Aquarium (pump can be included)	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Archery set (complete set)	Bulky waste	
	Artificial marble products	Not collected	See P. 26.
	Ashtray (glass)	Non-burnable garbage	Wrap broken items in paper, place in designated collection bag and mark "DANGER."
	Ashtray (metal)	Household metal	
	Attache case	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Audio equipment	Small appliances	Bulky waste if 50 cm or larger.
	Audio rack	Bulky waste	Oversized items of refuse if 1 m or larger.
	Auto parts	Not collected	See P. 26.
	Axe	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
B	Baby bath	Bulky waste	
	Baby bed	Bulky waste	
	Baby dresser	Bulky waste	
	Baby food	Raw garbage	
	Baby gate	Bulky waste	
	Baby stroller (including double)	Bulky waste	
	Badminton racket	Designated items	See P. 9.
	Bag stuffing	Burnable garbage	
	Bags (leather/cloth/vinyl, etc.)	Burnable garbage	
	Ball (volleyball/basketball/soccer/baseball/tennis/golf, etc.)	Burnable garbage	
	Ballpoint pen (metal)	Non-burnable garbage	
	Ballpoint pen (plastic)	Burnable garbage	
	Bamboo blind	Bulky waste	Burnable garbage if cut to under 50 cm and fits in designated collection bag with tie-able opening.
	Bamboo products (bamboo fence, stilts, etc.)	Bulky waste	Burnable garbage if cut to under 50 cm and fits in designated collection bag with tie-able opening.
	Bamboo shoot sheaths	Burnable garbage	
	Bamboo skewer	Burnable garbage	
	Bamboo sword	Designated items	See P. 9.
	Barbell	Bulky waste	Oversized items of refuse if 1 m or larger.
	Barley tea bag	Raw garbage	Can dispose with filter and bag. Can also be disposed as burnable garbage.
	Baseball bat	Designated items	See P. 9.
	Baseball glove (leather)	Burnable garbage	
	Basket (metal)	Household metal	Bulky waste if 50 cm or larger.
	Basket (wooden/plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Bath heater (24-hour bath)	Not collected	See P. 26.
	Bath heater (gas only)	Bulky waste	
	Bath lid (plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Bathtub	Not collected	See P. 26.
	Batteries (alkaline/manganese)	Hazardous waste	Can also be taken to collection point. See P. 23.
	Batteries (NiCd/NiMH/Lithium-ion)	Hazardous waste	Can also be taken to collection point. See P. 23.
	Battery (car)	Not collected	See P. 26.
	Battery charger	Small appliances	
	BBQ grill	Household metal	Bulky waste if 50 cm or larger.
	Beach parasol (including garden parasol)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Beanbag cushion	Burnable garbage	Bulky waste if 50 cm or larger.
	Bed (electric bed/care bed)	Not collected	See P. 26.
	Bed (frame only)	Oversized items of refuse	Bulky waste if under 1 m.
	Beer bottles	Glass bottles	Return to retailer. Empty contents and clean. Can also be taken to collection point.

Waste and recyclables sorting list

	Item name	Category	Notes
	Belt buckle	Household metal	
	Bench	Oversized items of refuse	
	Bench (wooden)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Beverage paper cartons	Drink packs	See P. 15.
	Bicycle	Oversized items of refuse	Bulky waste if under 1 m. Electric bicycles not collected.
	Binder	Burnable garbage	
	Bird cage (metal)	Household metal	Tray is burnable garbage. Bulky waste if 50 cm or larger.
	Bird cage (wooden/plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Blanket	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Blinds	Oversized items of refuse	Bulky waste if under 1 m.
	Block (concrete)	Not collected	See P. 26.
	Blood pressure monitor (battery type)	Small appliances	Remove batteries. Preferably place in small appliances collection box. See P. 14.
	Blood pressure monitor (mercury type)	Hazardous waste	Bulky waste if 50 cm or larger. Preferably take to collection point. See P. 23.
	Blue tarp	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Boards (wooden/plywood/acrylic)	Burnable garbage	Bulky waste if 50 cm or larger. Oversized items of refuse if 1 m – 2 m.
	Bobbin	Non-burnable garbage	Plastic type is burnable garbage.
	Bodyboard	Bulky waste	
	Boiler (gas only)	Bulky waste	
	Bones (fish, chicken, pork, beef, etc.)	Raw garbage	Can also be disposed as burnable garbage.
	Book	Magazines	
	Book stand (metal)	Household metal	
	Bookcase	Bulky waste	Oversized items of refuse if 1 m or larger.
	Bookend (metal)	Household metal	
	Bookshelf	Bulky waste	Oversized items of refuse if 1 m or larger.
	Bottle caps(1.8 L)	Burnable garbage	
	Bottle opener (metal)	Household metal	
	Bottles(1.8 L)	Glass bottles	Return to retailer. Can also be taken to collection point. See P. 23.
	Bouncer (baby cradle)	Bulky waste	
	Bowl (metal)	Household metal	
	Bowling ball	Non-burnable garbage	
	Box cutter blades	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Braille products	Paper item ("mixed paper")	Thermal expansion paper is burnable garbage.
	Bread	Raw garbage	
	Bread maker (home bakery)	Small appliances	Bulky waste if 50 cm or larger.
	Brick	Not collected	See P. 26.
	Broom	Designated items	See P. 9.
	Bucket	Burnable garbage	Household metal if metal.
	Buddhist altar	Bulky waste	Oversized items of refuse if 1 m or larger.
	Bunk bed	Oversized items of refuse	

	Item name	Category	Notes
	Burnt food	Raw garbage	
	Business card holder (metal)	Household metal	
	Butter	Raw garbage	
	Butter container (metal)	Household metal	Empty contents and clean. Non-burnable garbage if dirty.
	Button	Burnable garbage	
	Button battery	Not collected	See P. 26.
C	Cage (pet)	Bulky waste	Household metal if under 50 cm.
	Calculator	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Calendar	Paper item ("mixed paper")	Metal parts are non-burnable garbage.
	Camera	Small appliances	Disposable cameras are burnable garbage. Others preferably to small appliances collection box. See P. 14.
	Can (18 L, cooking oil)	Household metal	Take contents to collection point. Absorb with cloth or paper, or solidify if disposing as burnable garbage.* *Business waste cannot be disposed at collection stations.
	Can (18 L, paint cans, etc.)	Non-burnable garbage	Empty contents.* *Business waste cannot be disposed at collection stations.
	Can opener (metal)	Household metal	
	Candy	Raw garbage	
	Cane	Designated items	See P. 9.
	Cans (food/drink) * Aluminum	Aluminum cans	Empty contents and clean. Non-burnable garbage if dirty.
	Cans (food/drink) * Steel	Steel cans	Empty contents and clean. Non-burnable garbage if dirty.
	Cans (non-food/drink)	Household metal	Empty contents and clean. Non-burnable garbage if dirty.
	Cap (lid) (metal)	Household metal	
	Cap (lid) (plastic)	Plastic containers and packaging	Burnable garbage if no plastic mark.
	Car navigation/car TV	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Car refrigerator	Non-burnable garbage	
	Car refrigerator/warmer	Bulky waste	
	Car stop (parking block) (plastic)	Bulky waste	
	Carbon paper	Burnable garbage	
	Cardboard	Paper item ("mixed paper")	
	Cardboard box	Cardboards	Remove adhesive parts and tie with paper string.
	Carp streamer	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Carp streamer pole	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Carpet	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening. Hot carpet controller is small appliances.
	Carpet roller	Burnable garbage	Non-burnable garbage if handle is metal.
	Carpet roller (too large for designated collection bag)	Designated items	See P. 9.
	Carpet/rug	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Carport	Oversized items of refuse	Disassembled items only.
	Carry bag	Bulky waste	Oversized items of refuse if 1 m or larger.

Waste and recyclables sorting list

Item name	Category	Notes
Cart	Non-burnable garbage	Bulky waste if 50 cm or larger.
Cart (serving/work)	Bulky waste	Household metal if under 50 cm. Oversized items of refuse if 1 m or larger.
Cassette gas cylinder (body)	Hazardous waste	Empty contents and puncture in safe location with safe tools.
Cassette gas cylinder (cap)	Plastic containers and packaging	Check for plastic mark.
Cassette gas stove (tabletop stove)	Household metal	Cassette cylinder is hazardous waste.
Cassette tape	Burnable garbage	Preferably take to collection point. See P. 23.
Catalogs	Magazines	
CD (compact disc)	Burnable garbage	Preferably take to collection point. See P. 23.
Cellophane tape dispenser blade	Non-burnable garbage	
Ceramics (pottery)	Non-burnable garbage	Bulky waste if 50 cm or larger. Wrap in paper, place in designated garbage bag and mark "DANGER."
Chain	Household metal	
Chain (metal)	Household metal	
Chain (plastic)	Burnable garbage	
Chair (including floor chairs)	Bulky waste	
Charcoal	Burnable garbage	
Charcoal brazier	Non-burnable garbage	
Charger	Small appliances	Preferably place in small appliances collection box. See P. 14.
Chemical products	Not collected	See P. 26.
Chest	Bulky waste	Oversized items of refuse if 1 m or larger.
Chest of drawers (under 1 m on any side)	Bulky waste	Oversized items of refuse if 1 m or larger.
Chestnut shells	Raw garbage	
Child car seat	Bulky waste	
Children's toys (wooden/plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
Chopsticks (metal)	Household metal	
Christmas tree	Burnable garbage	Bulky waste if 50 cm or larger.
Christmas wreath	Burnable garbage	Bulky waste if 50 cm or larger.
Cigarette box	Paper item ("mixed paper")	
Cigarette butts	Burnable garbage	
Cigarette lighter	Hazardous waste	Use up contents before disposal.
Cleaning bag	Burnable garbage	
Cleaning cloth	Burnable garbage	
Clips	Non-burnable garbage	
Clock (battery)	Small appliances	Remove batteries. Bulky waste if 50 cm or larger.
Clock (mechanical)	Non-burnable garbage	Bulky waste if 50 cm or larger.
Closet storage	Bulky waste	Oversized items of refuse if 1 m or larger
Clothes dryer	4 designated home appliances	See P. 25.
Clothesline pole (metal)	Household metal	Bulky waste if 50 cm or larger.

Item name	Category	Notes
Clothesline stand (concrete/plastic)	Bulky waste	Set of 2.
Clothing	Fabrics	
Clothing (down/leather/cotton-filled)	Burnable garbage	
Coffee grounds/beans	Raw garbage	
Coffee maker	Small appliances	
Coin cell batteries	Hazardous waste	Batteries with type codes CR or BR. Insulate them by placing tape over the electrodes. See P10 and P26
Colander (metal)	Household metal	
Colander (plastic)	Burnable garbage	
Compact fluorescent bulb	Hazardous waste	Preferably take to collection point. See P. 23.
Compass	Non-burnable garbage	
Compost bin (food waste processor)	Bulky waste	Empty contents. Oversized items of refuse if 1 m or larger.
Compressor	Not collected	See P. 26.
Computer	Not collected	See P. 25.
Computer desk	Bulky waste	Oversized items of refuse if 1 m or larger.
Computer modem, drive	Small appliances	
Computer monitor (laptop, desktop)	Not collected	See P. 25.
Computer printer	Small appliances	Bulky waste if 50 cm or larger.
Computer rack	Bulky waste	Oversized items of refuse if 1 m or larger.
Computer scanner	Small appliances	Bulky waste if 50 cm or larger.
Concrete products	Not collected	See P. 26.
Concrete sink	Not collected	See P. 26.
Construction waste/building materials	Not collected	See P. 26.
Contact lenses	Burnable garbage	
Cooking oil (vegetable/animal)	Burnable garbage	Preferably take to collection point. If disposing as burnable garbage, absorb with cloth or paper, or solidify.
Cooking oil can (including metal lid)	Steel cans	Take contents to collection point. If disposing as burnable garbage, absorb with cloth or paper, or solidify.
Cooler box	Bulky waste	Non-burnable garbage if under 50 cm.
Cord reel (for electric cords)	Household metal	Remove cord for small appliances disposal.
Cords	Small appliances	Preferably place in small appliances collection box. See P. 14.
Cores (from wrap or toilet paper)	Paper item ("mixed paper")	Crush and place in paper bag.
Corn husk	Burnable garbage	
Corner hanger (metal)	Household metal	
Corner hanger (plastic)	Burnable garbage	
Cosmetic containers (bottles)	Glass bottles	Empty contents and clean. Non-burnable garbage if cannot be cleaned. Can also be taken to collection point. See P. 23.
Cosmetic containers (plastic)	Plastic containers and packaging	Check for plastic mark. Empty contents and clean. Burnable garbage if cannot be cleaned.
Cosmetic spray cans	Hazardous waste	Empty contents and puncture in safe location with safe tools.
Cotton/cotton-filled items	Burnable garbage	

Waste and recyclables sorting list

	Item name	Category	Notes
	Crab (crustacean) shells	Raw garbage	Can also be disposed as burnable garbage.
	Crutches	Designated items	See P. 9.
	Cup (glass)	Non-burnable garbage	
	Cup (metal)	Household metal	
	Cup (plastic)	Burnable garbage	
	Cup noodle container (paper)	Burnable garbage	
	Cup noodle container(plastic)	Plastic containers and packaging	Check for plastic mark. Clean dirt off. Burnable garbage if cannot be cleaned.
	Cup noodle lid	Burnable garbage	
	Curry powder	Raw garbage	
	Curtain rail	Bulky waste	Household metal if under 50 cm.
	Curtains	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Cushion	Burnable garbage	
	Cushioning material (styrofoam, etc.)	Plastic containers and packaging	See P. 11.
	Cutting board	Burnable garbage	Bulky waste if 50 cm or larger.
D	Dead leaves	Leaves, grass, gardening waste	Up to 3 bags per time. See P. 13.
	Deck brush	Designated items	See P. 9.
	Dehumidifier	Bulky waste	Bulky waste even if under 50 cm due to refrigerant removal requirement.
	Dentures	Burnable garbage	
	Desiccant	Burnable garbage	
	Desk	Bulky waste	Oversized items of refuse if 1 m or larger.
	Desk lamp	Small appliances	Bulky waste if 50 cm or larger. Remove fluorescent tubes, light bulbs.
	Detergent box	Burnable garbage	Due to odor.
	Dictionary	Magazines	Remove non-paper cover for burnable garbage.
	Dishcloth	Burnable garbage	
	Dishes (glass/ceramic)	Non-burnable garbage	Wrap broken items in paper, place in designated collection bag and mark "DANGER."
	Dishes (metal)	Household metal	
	Dishes (plastic)	Burnable garbage	
	Dishwasher	Small appliances	Bulky waste if 50 cm or larger.
	Disposable chopsticks	Burnable garbage	
	Disposable diapers	Burnable garbage	Flush waste down toilet. Free disposal if sorted separately (excluding pet diapers). See P. 7.
	Doll (fabric/plastic/wooden/paper)	Burnable garbage	Bulky waste if 50 cm or larger.
	Doll (metal)	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Doll case (acrylic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Doll case (glass)	Non-burnable garbage	Bulky waste if 50 cm or larger.

	Item name	Category	Notes
	Down jacket	Burnable garbage	
	Drawing paper	Paper item ("mixed paper")	Burnable garbage if drawn on with crayon or oil-based pen.
	Dress shirt	Fabrics	
	Dressing table	Bulky waste	Oversized items of refuse if 1 m or larger.
	Dressing table (vanity)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Dried foods	Raw garbage	
	Drip coffee bag	Raw garbage	Can dispose with filter and bag. Can also be disposed as burnable garbage.
	Dumbbell (metal weight)	Household metal	Bulky waste if 15 kg or more, or 50 cm or larger.
	Dumbbell (metal)	Household metal	Bulky waste if 15 kg or more, or 50 cm or larger.
	Dumbbell (plastic)	Burnable garbage	
	Duralumin case	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Dustpan (metal)	Household metal	Bulky waste if 50 cm or larger.
	Dustpan (plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	DVD	Burnable garbage	Preferably take to collection point. See P. 23.
	DVD player	Small appliances	Bulky waste if 50cm or larger. Preferably place in small appliances collection box. See P14
E	E-cigarette	Small appliances	
	Effects pedal	Small appliances	
	Egg carton (paper)	Paper item ("mixed paper")	
	Egg carton (plastic)	Plastic containers and packaging	Check for plastic mark.
	Eggshells	Raw garbage	Can also be disposed as burnable garbage.
	Electric bed	Not collected	See P. 26.
	Electric bicycle	Not collected	See P. 26.
	Electric carpet	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening. Controller is small appliances.
	Electric fan (including circulator)	Bulky waste	Small appliances if under 50 cm.
	Electric heating pad	Small appliances	
	Electric kettle	Small appliances	
	Electric toothbrush	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Electric water heater (large)	Not collected	See P. 26.
	Electronic drums	Small appliances	Bulky waste if 50 cm or larger.
	Electronic organ	Oversized items of refuse	
	Electronic piano	Not collected	See P. 26.
	Engine oil (waste oil)	Not collected	See P. 26.
	Envelope	Paper item ("mixed paper")	Remove non-paper parts for burnable garbage.
	Exercise machine (fitness equipment)	Oversized items of refuse	Bulky waste if under 1 m.
F	Fabric (kimono)	Fabrics	
	Fabric scraps	Burnable garbage	
	Fallen leaves	Leaves, grass, gardening waste	Up to 3 bags per time. See P. 13.
	Fan heater (oil/electric/gas)	Bulky waste	Remove kerosene before disposal. Small appliances if under 50 cm.

Waste and recyclables sorting list

	Item name	Category	Notes
	Fax machine	Small appliances	Bulky waste if 50 cm or larger. Preferably place in small appliances collection box. See P. 14.
	Felt	Burnable garbage	
	Fence	Bulky waste	Oversized items of refuse if 1 m or larger.
	Fertilizer	Not collected	See P. 26.
	File (metal)	Household metal	
	Film camera	Small appliances	Disposable cameras are burnable garbage. Preferably place in small appliances collection box. See P. 14.
	Fire extinguisher	Not collected	See P. 26.
	Fire extinguisher (aerosol type)	Hazardous waste	Empty contents and puncture in safe location with safe tools.
	Fireworks	Burnable garbage	Soak in water to prevent ignition.
	Fish	Raw garbage	
	Fish bones	Raw garbage	Can also be disposed as burnable garbage.
	Fish hooks	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Fishing reel	Non-burnable garbage	
	Fishing reel (electric)	Small appliances	
	Fishing rod	Designated items	See P. 9.
	Fishing weights	Non-burnable garbage	
	Floor cleaning wiper (with handle)	Designated items	See P. 9.
	Floor cushion	Bulky waste	Non-burnable garbage if under 50 cm.
	Floppy disk	Burnable garbage	Preferably take to collection point. See P. 23.
	Flour	Raw garbage	
	Flower frog	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Fluorescent tubes (fluorescent lights)	Hazardous waste	Preferably take to collection point. See P. 23.
	Flyer (newspaper insert)	News paper	Bundle together with newspaper.
	Flyer (non-newspaper insert)	Paper item ("mixed paper")	
	Folding bed	Oversized items of refuse	Electric types not collected.
	Folding chair	Bulky waste	Non-burnable garbage if under 50 cm.
	Folding table	Bulky waste	Oversized items of refuse if 1 m or larger
	Food scraps	Raw garbage	
	Food waste	Raw garbage	Drain water. Preferably process with household food waste processor.
	Food waste in drain net	Raw garbage	Can dispose with drain net.
	Food waste processor (electric)	Small appliances	Bulky waste if 50 cm or larger.
	Fork	Burnable garbage	Household metal if metal.
	Fountain pen	Non-burnable garbage	
	Freezer	4 designated home appliances	See P. 25.
	Fried chicken bones	Raw garbage	Can also be disposed as burnable garbage.
	Frosted glass bottles	Glass bottles	Can also be taken to collection point. See P. 23.
	Fruit peels, seeds	Raw garbage	
	Frying pan	Household metal	
	Full-length mirror (stand mirror)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Fur	Burnable garbage	
	Furoshiki (wrapping cloth)	Burnable garbage	
	Futon (cotton)	Bulky waste	Burnable garbage if cover can be removed and cotton separated into designated collection bag with tie-able opening.
	Futon (down)	Burnable garbage	Place in designated collection bag with tie-able opening.
	Futon cover	Fabrics	
	Futon dryer	Small appliances	
	Futon hanging rack	Bulky waste	
G	Game console (electric/battery operated)	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Game console (non-electric/battery)	Burnable garbage	
	Game software	Burnable garbage	Disc types preferably to collection points. See P. 23.
	Garbage can (metal)	Household metal	Bulky waste if 50 cm or larger.
	Garbage can (wooden/plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Garden pesticides	Not collected	See P. 26.
	Garden stakes	Designated items	See P. 9.
	Gas cylinder (propane)	Not collected	See P. 26.
	Gas stove	Bulky waste	
	Gasoline container	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Gate	Bulky waste	Oversized items of refuse if 1 m or larger.
	Gateball stick	Designated items	See P. 9.
	Generator	Not collected	See P. 26.
	Glass	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER." Bulky waste if doesn't fit in designated collection bag (up to 2 m).
	Glass cleaner (spray can)	Hazardous waste	Empty contents and puncture in safe location with safe tools.
	Glass products (cups/dishes, etc.)	Non-burnable garbage	Wrap broken items in paper, place in designated collection bag and mark "DANGER."
	Glasses	Non-burnable garbage	
	Glasses case (metal)	Non-burnable garbage	
	Glasses case (plastic)	Burnable garbage	
	Globe	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Gloves	Burnable garbage	
	Go board	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Go stones	Burnable garbage	
	Golf bag	Bulky waste	Oversized items of refuse if 1 m or larger.
	Golf club	Designated items	See P. 9.
	Golf set (up to 18 clubs, bag, shoes set)	Oversized items of refuse	Bulky waste if under 1 m.
	Grass	Leaves, grass, gardening waste	Up to 3 bags per time. See P. 13.
	Grass trimmer	Oversized items of refuse	Shoulder-mounted engine type, electric type, push type allowed. Bulky waste if under 1 m.
	Greenhouse (small, frame only)	Bulky waste	Oversized items of refuse if 1 m or larger.

Waste and recyclables sorting list

	Item name	Category	Notes
	Grill net	Household metal	Bulky waste if 50 cm or larger.
	Guitar (including case)	Bulky waste	Oversized items of refuse if 1 m or larger.
H	Hair dryer	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Hair pin	Non-burnable garbage	
	Hair spray can	Hazardous waste	Empty contents and puncture in safe location with safe tools.
	Hammer	Non-burnable garbage	
	Hand cart	Oversized items of refuse	Bulky waste if under 1 m.
	Hand towel	Fabrics	
	Hand truck	Bulky waste	
	Hand warmer (disposable)	Burnable garbage	
	Hand warmer (rechargeable)	Small appliances	
	Handkerchief	Fabrics	
	Hanger (metal)	Household metal	
	Hanger (wooden/plastic)	Burnable garbage	
	Hanger rack	Bulky waste	Oversized items of refuse if 1 m or larger.
	Hardtack	Raw garbage	
	Harmonica (metal)	Household metal	
	Hat	Burnable garbage	
	Headphones	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Heaters (oil/gas/electric)	Bulky waste	Electric heaters under 50 cm are small appliances. Remove kerosene. Oil/gas heaters under 50 cm are non-burnable garbage.
	Heated tobacco devices	Small appliances	
	Helmet	Non-burnable garbage	
	Hibachi	Bulky waste	Remove ashes.
	High-pressure washer	Small appliances	Bulky waste if 50 cm or larger.
	Hoe	Designated items	See P. 9.
	Hole punch	Household metal	Remove non-metal parts.
	Home medical waste (items with needles)	Not collected	Return to medical institution/ pharmacy. See P. 26.
	Home medical waste (vinyl bags, tubes, catheters, etc. without needles)	Burnable garbage	Dispose as burnable garbage even if has plastic mark. (Items with needles not collected. Return to medical institution/pharmacy.)
	Hose	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Hose reel (metal)	Household metal	Remove hose.
	Hose reel (plastic)	Burnable garbage	Can keep hose wound.
	Hot plate (main unit)	Small appliances	
	Hot water bottle (metal)	Household metal	
	Household shrine	Bulky waste	Oversized items of refuse if 1 m or larger.
	Humidifier	Small appliances	Bulky waste if 50 cm or larger.
I	Ice cream cups/lids (paper)	Burnable garbage	
	Ice cream sticks	Burnable garbage	

	Item name	Category	Notes
	Ice pack	Burnable garbage	
	Ice pick	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	IH cooktop (cooking heater)	Small appliances	Bulky waste if 50 cm or larger
	Ikebana (flower arrangement)	Burnable garbage	
	Incandescent light bulb	Non-burnable garbage	
	Incense box	Burnable garbage	Due to odor.
	Indoor clothesline	Bulky waste	
	Ink cartridges (for home computer printers)	Burnable garbage	Preferably take to collection point. See P. 23.
	Ink stone	Non-burnable garbage	
	Insect cage (metal)	Household metal	Bulky waste if 50 cm or larger.
	Insect cage (wooden/plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Insect pin	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Instant coffee	Raw garbage	
	Instant water heater	Bulky waste	
	Insulation material	Not collected	See P. 26.
	Iron	Small appliances	
	Iron plate	Bulky waste	Up to 4 mm thick, under 1 m length. Larger items not collected.
	Ironing board	Bulky waste	
	Iron-on transfer paper	Burnable garbage	
J	Jack (hydraulic)	Bulky waste	
	Jack (pantograph type)	Household metal	Bulky waste if 50 cm or larger.
	Jam	Raw garbage	
	Japanese writing paper	Burnable garbage	
	Jelly	Raw garbage	
	Jug (large water bottle)	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Juicer/mixer	Small appliances	
K	Karaoke equipment	Small appliances	Bulky waste if 50 cm or larger.
	Kendo equipment set (men/do/kote)	Bulky waste	Shinai is designated items (See P. 9).
	Kerosene tank (metal)	Non-burnable garbage	Empty contents.
	Kettle	Household metal	
	Key holder (metal)	Non-burnable garbage	
	Key holder (plastic/wooden)	Burnable garbage	
	Keyboard (computer)	Small appliances	
	Keyboard (instrument)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Keys (metal)	Household metal	
	Kickboard/kick scooter	Bulky waste	Electric types not collected.
	Kimono (including obi)	Fabrics	
	Kitchen cabinet	Bulky waste	Oversized items of refuse if 1 m or larger.
	Kitchen knife	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Kitchen paper	Burnable garbage	
	Kitchen storage unit	Bulky waste	Oversized items of refuse if 1 m or larger.

Waste and recyclables sorting list

	Item name	Category	Notes
	Knife	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Knife sharpener (non-electric)	Burnable garbage	
	Knitting machine	Bulky waste	Oversized items of refuse if 1 m or larger.
	Kotatsu (including top board)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Koto	Oversized items of refuse	Bulky waste if under 1 m.
L	Ladder	Bulky waste	Oversized items of refuse if 1 m or larger.
	Lattice (wood fence)	Bulky waste	Oversized items of refuse if 1 m – 2 m.
	Laundry basket (metal)	Household metal	Bulky waste if 50 cm or larger.
	Laundry basket (plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Lawn mower	Bulky waste	Oversized items of refuse if 1 m or larger. Manual, electric, and engine types allowed.
	Leather products	Burnable garbage	
	LED bulb	Non-burnable garbage	
	LED light	Small appliances	Remove bulb. Preferably place in small appliances collection box. See P14
	Leisure chair	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Leisure sheet	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Leisure table	Bulky waste	Oversized items of refuse if 1 m or larger.
	Letter case (metal)	Household metal	
	Lid (metal)	Household metal	Glass types are non-burnable garbage.
	Lid (plastic)	Plastic containers and packaging	Check for plastic mark. Clean dirt off. Burnable garbage if cannot be cleaned.
	Light bulb (incandescent/LED)	Non-burnable garbage	
	Lighter	Hazardous waste	Use up contents.
	Lighting fixtures	Small appliances	Bulky waste if 50 cm or larger. Remove fluorescent tubes, incandescent bulbs, LED bulbs.
	Lipstick container (metal)	Non-burnable garbage	
	Lipstick container (plastic)	Burnable garbage	
	Lithium-ion batteries	Hazardous waste	Can also be taken to collection point. See P. 23.
	Lithium coin cell batteries	Hazardous waste	Batteries with type codes CR or BR. Insulate them by placing tape over the electrodes. See P10 and P26
	Lock (metal)	Household metal	
	Locker (metal)	Household metal	Bulky waste if 50 cm or larger.
	Long-handled pluning shears	Designated items	See P. 9.
	Low-frequency therapy device	Small appliances	Bulky waste if 50 cm or larger.
	Lunch box	Burnable garbage	Household metal if metal.
	Lure	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
M	Macaroni	Raw garbage	
	Machete	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Magazine rack (metal)	Household metal	Bulky waste if 50 cm or larger.
	Magazines	Magazines	Remove attachments.
	Magic marker	Burnable garbage	

	Item name	Category	Notes
	Magnet	Non-burnable garbage	
	Mahjong mat	Burnable garbage	
	Mahjong table	Bulky waste	
	Mahjong table (automatic)	Not collected	See P. 26.
	Mahjong tiles	Burnable garbage	
	Margarine	Raw garbage	
	Mask	Burnable garbage	
	Massage chair	Oversized items of refuse	
	Mat (entrance/toilet/bath, etc.)	Burnable garbage	
	Mattress (urethane)	Burnable garbage	Cut into 3 pieces along fold lines, bundle with string or tape, attach one 40 L designated collection bag and dispose as burnable garbage. If cannot cut, dispose as bulky waste.
	Mattress (with springs)	Oversized items of refuse	
	MD (MiniDisc)	Burnable garbage	Preferably take to collection point. See P. 23.
	Measuring device (scale)	Non-burnable garbage	Small appliances if digital. Bulky waste if 50 cm or larger.
	Meat	Raw garbage	
	Mechanical pencil (metal)	Non-burnable garbage	
	Mechanical pencil (plastic)	Burnable garbage	
	Medicine (pharmaceuticals)	Burnable garbage	Agricultural chemicals, chemical products not collected.
	Medicine (pill) container (bottle)	Glass bottles	Empty contents. Can also be taken to collection point. See P. 23.
	Medicine (pill) container (plastic)	Plastic containers and packaging	Check for plastic mark. Empty contents and clean. Burnable garbage if cannot be cleaned.
	Medicine (pill) container cap (metal)	Household metal	
	Medicine (pill) container cap (plastic)	Plastic containers and packaging	Check for plastic mark. Clean dirt off. Burnable garbage if cannot be cleaned.
	Medicine bag/box (paper)	Paper item ("mixed paper")	
	Medicine tube (metal)	Non-burnable garbage	
	Medicine tube (plastic)	Burnable garbage	
	Medicine tube cap (plastic)	Plastic containers and packaging	Check for plastic mark. Burnable garbage if cannot be cleaned.
	Melodica	Non-burnable garbage	
	Mercury thermometer	Hazardous waste	Preferably take to collection point. See P. 23.
	Metal bat	Designated items	See P. 9.
	Microwave	Small appliances	Bulky waste if 50 cm or larger.
	Microwave oven	Small appliances	Bulky waste if 50 cm or larger.
	Microwave stand	Bulky waste	Oversized items of refuse if 1 m or larger.
	Milk cartons (white inside)	Drink packs	Burnable garbage if inside is silver or unmarked.
	Mineral oil	Not collected	See P. 26.
	Mini component system (excluding speakers)	Small appliances	Bulky waste if 50 cm or larger.
	Mirror	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER." Bulky waste if 50 cm or larger.
	Mobile battery	Small appliances	

Waste and recyclables sorting list

	Item name	Category	Notes
	Mobile phone	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Moldy food	Raw garbage	
	Mop	Designated items	See P. 9.
	Mortar (building material)	Not collected	See P. 26.
	Mortar (stamp mill)	Not collected	Stone and wooden types not collected.
	Motorcycle	Not collected	See P. 26.
	Motorized bicycle	Not collected	See P. 26.
	Music box	Non-burnable garbage	
	Mustard	Raw garbage	See P. 36 "Tubes" for container.
N	Nail clippers	Household metal	
	Nails	Non-burnable garbage	Wrap in paper, place in designated collection bag and mark "DANGER."
	Necktie	Fabrics	
	Needle	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	New Year's decorations	Burnable garbage	Bulky waste if 50 cm or larger.
	Newspaper	News paper	See P. 15.
	Newspaper (used for draining food waste)	Burnable garbage	
	Newspaper inserts	News paper	Bundle together with newspaper.
	Nickel-cadmium batteries	Hazardous waste	Can also be taken to collection point. See P. 23.
	Nickel-metal hydride batteries	Hazardous waste	Can also be taken to collection point. See P. 23..
	Notebook	Magazines	
O	Oil (cooking)	Burnable garbage	Preferably take to collection point. If disposing as burnable garbage, absorb with cloth or paper, or solidify. See P. 23.
	Oil cans (cooking oil)	Steel cans	Take contents to collection point. If disposing as burnable garbage, absorb with cloth or paper, or solidify.
	Oil cans (machine oil and other oil containers)	Non-burnable garbage	Absorb contents with cloth or paper or solidify for burnable garbage.
	Oil drum	Not collected	See P. 26.
	Oil heater (accordion style)	Bulky waste	Bulky waste even if under 50 cm due to oil removal requirement.
	Oil products	Not collected	See P. 26.
	Oil tank (outdoor)	Not collected	See P. 26.
	Oil-based pen	Burnable garbage	
	Oiled paper	Burnable garbage	
	Onion skin	Raw garbage	
	Organ	Oversized items of refuse	Bulky waste if under 1 m.
	Origami paper	Paper item ("mixed paper")	
	Ottoman (footstool)	Bulky waste	Non-burnable garbage if under 50 cm.
P	Paint can	Non-burnable garbage	Absorb contents with cloth or paper or solidify for burnable garbage.
	Paint spray can	Hazardous waste	Empty contents and puncture in safe location with safe tools.
	Paint tubes (metal)	Non-burnable garbage	
	Paint tubes (plastic)	Burnable garbage	
	Pamphlet	Magazines	
	Panel heater (flat type)	Bulky waste	Small appliances if under 50 cm.
	Pants presser	Small appliances	Bulky waste if 50 cm or larger.

	Item name	Category	Notes
	Paper bags	Paper item ("mixed paper")	Can also be used as bags for mixed paper disposal.
	Paper cartons (milk/juice with white inside)	Drink packs	Burnable garbage if inside is silver or does not have the ♻ mark.
	Paper clay	Burnable garbage	
	Paper cups	Burnable garbage	
	Paper plates	Burnable garbage	
	Paper towel	Burnable garbage	
	Paper towels	Burnable garbage	
	Paperweight	Household metal	
	Parabolic antenna (BS/CS reception)	Bulky waste	Non-burnable garbage if under 50 cm.
	Parking block	Bulky waste	Concrete type not collected.
	Peanut shells	Raw garbage	
	Pencil case (metal)	Household metal	
	Pestle	Bulky waste	Oversized items of refuse if 1 m or larger.
	PET bottles	PET bottles	Check for PET mark. Clean dirt off. Burnable garbage if cannot be cleaned.
	Pet cage (metal)	Household metal	Bulky waste if 50 cm or larger.
	Pet cage (plastic/wooden)	Burnable garbage	Bulky waste if 50 cm or larger.
	Pet feces	Designated items	Flush down toilet.
	Pet food	Burnable garbage	
	Pet food can (including metal lid) * Aluminum	Aluminum cans	Check for mark. Empty contents and clean. Non-burnable garbage if dirty.
	Pet food can (including metal lid) * Steel	Steel cans	Check for mark. Empty contents and clean. Non-burnable garbage if dirty.
	Pet house	Bulky waste	
	Pet toilet sand	Burnable garbage	
	Pharmaceuticals	Burnable garbage	Agricultural chemicals, chemical products not collected.
	Photo printing paper	Burnable garbage	
	Photographic paper	Burnable garbage	
	Photographs	Burnable garbage	
	Piano (including electronic piano)	Not collected	See P. 26.
	Picture frame	Non-burnable garbage	Household metal if metal. Bulky waste if 50 cm or larger.
	Pillow	Burnable garbage	
	Ping pong table	Oversized items of refuse	Business waste not collected.
	Pipe chair	Household metal	Bulky waste if 50 cm or larger.
	Pipe hanger	Household metal	Bulky waste if 50 cm or larger.
	Pipe products (metal)	Household metal	Bulky waste if 50 cm or larger.
	Plant pots (black vinyl)	Plastic containers and packaging	Check for plastic mark. Clean dirt off. Burnable garbage if cannot be cleaned.
	Plant pots (plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Plant pots (terracotta/ceramic)	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Planter (gardening)	Burnable garbage	Bulky waste if 50 cm or larger.

Waste and recyclables sorting list

	Item name	Category	Notes
	Plaster statue	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Plasterboard	Not collected	See P. 26.
	Plastic airtight container	Burnable garbage	
	Plastic bucket	Bulky waste	
	Plastic tank	Burnable garbage	Place in designated collection bag with tie-able opening. If cannot tie, attach one 40 L designated collection bag per item.
	Plate (glass/ceramic)	Non-burnable garbage	Wrap broken items in paper, place in designated collection bag and mark "DANGER."
	Plate (paper/plastic)	Burnable garbage	
	Plate glass	Non-burnable garbage	Bulky waste if 50 cm or larger. Oversized items of refuse if 1 m – 2 m.
	Plate only of hot plate	Household metal	
	Plywood	Burnable garbage	Bulky waste if 50 cm or larger. Oversized items of refuse if 1 m – 2 m.
	Pole pruning shears	Designated items	See P. 9.
	Porcelain toilet fixtures	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Portable fan	Small appliances	
	Portable music player	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Portable toilet	Bulky waste	
	Postcard	Paper item ("mixed paper")	
	Poster	Paper item ("mixed paper")	
	Pot (earthenware)	Non-burnable garbage	
	Pot (metal/enamel)	Household metal	
	Pot (with heating function)	Small appliances	
	Pot (without heating function)	Non-burnable garbage	
	Potato starch	Raw garbage	
	Powdered milk can (including metal lid)	Steel cans	Empty contents and clean. Non-burnable garbage if dirty.
	Power tools	Small appliances	Bulky waste if 50 cm or larger.
	Pressure cooker	Household metal	
	Pressure-sealed postcards	Burnable garbage	
	Printer (including multifunction)	Small appliances	Bulky waste if 50 cm or larger.
	Projection TV	Oversized items of refuse	
	Projector	Bulky waste	Bulky waste if 50 cm or larger.
	Projector	Small appliances	Small appliances if under 50 cm.
	Projector screen	Bulky waste	
	Pruning shears	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER." For long-handled pruning shears please see Designated items on P. 9.
	Pumice stone	Non-burnable garbage	
	Pump (electric)	Small appliances	Bulky waste if 50 cm or larger.
	Push cart	Bulky waste	
Q	Quilted items	Burnable garbage	

	Item name	Category	Notes
R	Racket (tennis/badminton)	Designated items	See P. 9.
	Radio/radio cassette player	Small appliances	Bulky waste if 50 cm or larger. Preferably place in small appliances collection box. See P. 14.
	Rain gutters (metal)	Non-burnable garbage	Bulky waste if 50 cm or larger. Oversized items of refuse if 1 m – 2 m.
	Rain gutters (plastic)	Burnable garbage	Bulky waste if 50 cm or larger. Oversized items of refuse if 1 m – 2 m.
	Raincoat	Burnable garbage	
	Rake	Designated items	See P. 9.
	Range hood fan	Bulky waste	
	Rattan products	Burnable garbage	Bulky waste if 50 cm or larger.
	Razor (disposable plastic)	Burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Razor (disposable steel)	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Razor (non-electric)	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Razor blades	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Receipt (thermal paper)	Burnable garbage	Mixed paper if regular paper.
	Reception chair (multi-seat)	Oversized items of refuse	
	Reception chair (single seat)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Rechargeable batteries	Hazardous waste	Can also be taken to collection point. See P. 23.
	Record (EP/LP/SP)	Burnable garbage	Preferably take to collection point. See P. 23.
	Reed screen	Bulky waste	Burnable garbage if cut to under 50 cm and fits in designated collection bag with tie-able opening.
	Refrigerator	4 designated home appliances	See P. 25.
	Retort food	Raw garbage	Contents as raw garbage, packaging sorted by material into plastic containers, burnable garbage, etc.
	Retort pouch	Plastic containers and packaging	Check for plastic mark. Clean dirt off. Burnable garbage if cannot be cleaned.
	Rice	Raw garbage	
	Rice bag (paper)	Burnable garbage	
	Rice bag (vinyl)	Plastic containers and packaging	Check for plastic mark. Empty contents and clean. Burnable garbage if cannot be cleaned.
	Rice bran	Raw garbage	
	Rice cake maker	Small appliances	Bulky waste if 50 cm or larger.
	Rice cooker inner pot	Household metal	
	Rice cooker/warmer	Small appliances	Inner pot is household metal.
	Rice polishing machine (household)	Bulky waste	Small appliances if under 50 cm.
	Rice porridge	Raw garbage	
	Rice storage bin with rice polisher	Bulky waste	
	Robot vacuum cleaner	Small appliances	
	Rocking chair	Oversized items of refuse	
	Rodeo machine (horse-riding exercise equipment)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Roller blades/roller shoes/roller skates	Non-burnable garbage	
	Roof carrier (pole/ladder type)	Bulky waste	Box type not collected.
	Roof tiles	Not collected	See P. 26.

Waste and recyclables sorting list

	Item name	Category	Notes
	Rope	Burnable garbage	Cut to under 1 m and place in designated collection bag with tie-able opening.
	Rubber band	Burnable garbage	
	Rubber boat (including oars)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Rubber hose	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Rubber items	Burnable garbage	
	Ruler (metal)	Household metal	
	Ruler (plastic)	Burnable garbage	
	Running machine	Oversized items of refuse	Bulky waste if under 1 m.
	Rush mat	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
S	Safe (fireproof)	Not collected	See P. 26.
	Safe (portable)	Household metal	
	Salt	Raw garbage	
	Sand (soil/stones)	Not collected	See P. 26.
	Sandpaper	Burnable garbage	
	Sanitary items	Burnable garbage	
	Sanitary products	Burnable garbage	
	Saw	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Scale (battery)	Small appliances	Remove batteries. Bulky waste if 50 cm or larger.
	Scale (non-battery)	Household metal	Bulky waste if 50 cm or larger.
	Scarf	Fabrics	
	School bag	Burnable garbage	
	Scissors	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Scooter	Not collected	See P. 26.
	Screen curtain	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Screen doors (metal frame)	Bulky waste	Remove screen. Removed screen is burnable garbage. Household metal if under 50 cm. Oversized items of refuse if 1 m or larger.
	Screw	Non-burnable garbage	
	Screwdriver (metal)	Household metal	
	Scrubbing brush	Burnable garbage	
	Scrubbing brush (metal)	Non-burnable garbage	
	Scuba air tank	Not collected	See P. 26.
	Scuba jacket, regulator, depth gauge	Non-burnable garbage	
	Scuba weights (up to 10 kg)	Bulky waste	Belt set allowed.
	Sea urchin shells	Raw garbage	Can also be disposed as burnable garbage.
	Seasoning (liquid)	Burnable garbage	Absorb with paper or cloth for burnable garbage.
	Seasoning (solid)	Raw garbage	
	Seaweed	Raw garbage	
	Seaweed can (including metal lid)	Steel cans	Empty contents and clean. Non-burnable garbage if dirty.
	Seeds (vegetables, fruits)	Raw garbage	

	Item name	Category	Notes
	Sewing machine (foot-operated)	Bulky waste	Oversized items of refuse if 1 m or larger.
	Sewing machine (tabletop)	Small appliances	Bulky waste if 50 cm or larger.
	Sewing needle	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Shampoo container	Plastic containers and packaging	Check for plastic mark. Empty contents and clean. Burnable garbage if cannot be cleaned.
	Sharp objects	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Sheet (vinyl sheet/blue tarp/leisure sheet)	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
	Sheet metal (metal, plastic)	Bulky waste	Oversized items of refuse if 1 m – 2 m.
	Sheets	Fabrics	
	Shelf	Bulky waste	Oversized items of refuse if 1 m or larger.
	Shells	Raw garbage	Can also be disposed as burnable garbage.
	Shoe horn (metal)	Household metal	
	Shoe horn (plastic/wooden)	Burnable garbage	
	Shoe stuffing	Burnable garbage	
	Shoes (including hiking/spike)	Burnable garbage	
	Shogi board	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Shogi pieces	Burnable garbage	
	Shopping bag	Plastic containers and packaging	
	Shopping cart	Bulky waste	Household metal if under 50 cm.
	Shovel (too large for designated collection bag)	Designated items	See P. 9.
	Shovel (metal)	Household metal	
	Shovel (plastic)	Burnable garbage	
	Shredded paper	Paper item ("mixed paper")	Place in paper bag and seal with staples. Or wrap in newspaper and secure edges with staples.
	Shredder (electric)	Small appliances	Bulky waste if 50 cm or larger.
	Shredder (manual)	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Shrimp (crustacean) shells	Raw garbage	Can also be disposed as burnable garbage.
	Sickle (for grass cutting)	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Sideboard	Bulky waste	Oversized items of refuse if 1 m or larger.
	Silicone products	Burnable garbage	
	Silver paper from cigarette box	Burnable garbage	
	Sink	Oversized items of refuse	Enamel and concrete types not collected.
	Skateboard	Non-burnable garbage	
	Skewer (metal)	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
	Skewer (wooden)	Burnable garbage	
	Ski boots	Non-burnable garbage	
	Ski carrier (pole type)	Bulky waste	Box type not collected.
	Ski poles	Designated items	See P. 9.
	Ski set (skis, poles, boots set)	Oversized items of refuse	Bulky waste if under 1 m.

Waste and recyclables sorting list

	Item name	Category	Notes
	Ski wear	Burnable garbage	
	Sled (plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Sliding door	Bulky waste	Oversized items of refuse if 1 m – 2 m.
	Slippers	Burnable garbage	
	Slope (rubber/plastic/iron)	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Small rechargeable batteries	Hazardous waste	
	Smartphones	Small appliances	Preferably place in small appliances collection box. See P. 14.
	Snowboard	Oversized items of refuse	Bulky waste if under 1 m.
	Soap box	Burnable garbage	Due to odor.
	Soba noodles	Raw garbage	
	Socks	Burnable garbage	
	Sofa (1 m or larger)	Oversized items of refuse	Bulky waste if under 1 m.
	Sofa bed	Oversized items of refuse	Electric types not collected.
	Soil	Not collected	See P. 26.
	Solar panel	Not collected	See P. 26.
	Solar power module	Not collected	See P. 26.
	Solid seasoning	Raw garbage	
	Somen noodles	Raw garbage	
	Spade	Designated items	See P. 9.
	Spaghetti	Raw garbage	
	Spare rib bones	Raw garbage	Can also be disposed as burnable garbage.
	Spatula (metal)	Household metal	
	Spatula (plastic)	Burnable garbage	
	Speakers (set of 2)	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Spoiled food	Raw garbage	
	Sponge	Burnable garbage	
	Spoon	Burnable garbage	Household metal if metal.
	Spray bottle	Burnable garbage	Household metal if metal.
	Spray cans	Hazardous waste	Empty contents and puncture in safe location with safe tools.
	Sprayer	Bulky waste	Non-burnable garbage if under 50 cm.
	Spring mattress	Oversized items of refuse	
	Stamp pad (metal)	Non-burnable garbage	
	Stamp pad (plastic)	Burnable garbage	
	Stapler	Non-burnable garbage	
	Staples	Non-burnable garbage	
	Stationery (metal)	Non-burnable garbage	
	Stationery (wooden/plastic)	Burnable garbage	
	Steamer (metal)	Household metal	
	Steamer (wooden/plastic)	Burnable garbage	
	Steel cans (beverage, food)	Steel cans	Empty contents and clean. Non-burnable garbage if dirty.

	Item name	Category	Notes
	Steel locker	Bulky waste	Oversized items of refuse if 1 m or larger.
	Steel wool	Non-burnable garbage	
	Step stool (metal)	Household metal	Bulky waste if 50 cm or larger.
	Step stool (plastic)	Burnable garbage	Bulky waste if 50 cm or larger.
	Stepladder	Bulky waste	Oversized items of refuse if 1 m or larger.
	Stereo set (speakers 50 cm or taller)	Oversized items of refuse	
	Stereo set (speakers under 50 cm height)	Bulky waste	
	Sterilizer	Non-burnable garbage	Bulky waste if 50 cm or larger.
	Stick (gateball)	Designated items	See P. 9.
	Stockings	Burnable garbage	
	Stones	Not collected	See P. 26.
	Storage bag (vinyl)	Burnable garbage	
	Storage box	Bulky waste	
	Storage case (metal)	Household metal	Bulky waste if 50 cm or larger.
	Storage case (plastic)	Bulky waste	Burnable garbage if under 50 cm.
	Storage furniture	Bulky waste	Oversized items of refuse if 1 m or larger.
	Storage shed	Oversized items of refuse	Only if disassembled and under 2 m.
	Storm doors (swing doors, etc.)	Bulky waste	Household metal if under 50 cm. Oversized items of refuse if 1 m - 2 m.
	Straws	Burnable garbage	
	Stuffed toys	Burnable garbage	Bulky waste if 50 cm or larger.
	Styrofoam container/packaging material	Plastic containers and packaging	
	Sublimation transfer paper	Burnable garbage	
	Sublimation transfer paper	Burnable garbage	
	Sugar	Raw garbage	
	Suitcase	Bulky waste	
	Summer bed	Bulky waste	
	Sunshade (household)	Burnable garbage	Bulky waste if 50 cm or larger.
	Surfboard	Not collected	See P. 26.
	Sweater	Fabrics	
	Sweet bags (plastic)	Plastic containers and packaging	Check for plastic mark. Clean dirt off. Burnable garbage if cannot be cleaned.
	Sweet boxes (paper)	Paper item ("mixed paper")	Burnable garbage if has odor or dirt.
	Sweet tins (including metal lids)	Steel cans	Empty contents and clean.
	Sweets	Raw garbage	For unopened items: contents as raw garbage, packaging sorted by material into plastic containers, burnable garbage, etc.
	Swimsuit	Burnable garbage	
	Synthesizer	Bulky waste	Oversized items of refuse if 1 m or larger.
	Synthetic leather products	Burnable garbage	
	Synthetic oil	Not collected	See P. 26.
	Syringe/needle	Not collected	Return to medical institution/ pharmacy. See P. 26.
T	Table	Bulky waste	Oversized items of refuse if 1 m or larger.
	Tablet devices	Small appliances	Preferably place in small appliances collection box. See P. 14.

Waste and recyclables sorting list

Item name	Category	Notes
Table tennis racket	Burnable garbage	
Tabletop gas stove	Household metal	
Tabletop gas stove cylinder	Hazardous waste	Empty contents and puncture in safe location with safe tools.
Tarp (outdoor)	Bulky waste	
Tatami mat	Bulky waste	Only if divided into 4 pieces per mat.
Taxidermy	Non-burnable garbage	Bulky waste if 50 cm or larger.
Tea bag	Raw garbage	Can dispose with filter and bag. Can also be disposed as burnable garbage.
Tea box	Bulky waste	
Tea can (including metal lid)	Steel cans	Empty contents and clean. Non-burnable garbage if dirty.
Tea leaves	Raw garbage	
Tea tube (paper)	Paper item ("mixed paper")	Crush and place in paper bag.
Telephone	Small appliances	Preferably place in small appliances collection box. See P. 14.
Telescope	Bulky waste	
Tempura oil	Burnable garbage	Preferably take to collection point. If disposing as burnable garbage, absorb with cloth or paper, or solidify.
Tennis racket	Designated items	See P. 9.
Tension rod	Designated items	See P. 9.
Tent (small only)	Bulky waste	
Textbooks (reference books)	Magazines	
Thermal expansion paper	Burnable garbage	
Thermal paper	Burnable garbage	
Thermometer	Non-burnable garbage	
Thermometer (battery)	Small appliances	Remove batteries. Preferably place in small appliances collection box. See P. 14.
Thermometer (mercury)	Hazardous waste	Can also be taken to collection point. See P. 23.
Three-way mirror	Bulky waste	Non-burnable garbage if under 50 cm.
Thumbtacks	Non-burnable garbage	Wrap in paper, place in designated garbage bag and mark "DANGER."
Tiles	Not collected	See P. 26.
Tire chains (metal)	Household metal	
Tire chains (rubber)	Burnable garbage	
Tires	Not collected	See P. 26.
Tissue box	Paper item ("mixed paper")	Remove vinyl part for plastic containers.
Tissue paper	Burnable garbage	
Toaster	Small appliances	
Toaster oven	Small appliances	
Toilet plunger	Designated items	See P. 9.
Tool box (metal)	Household metal	Bulky waste if 50 cm or larger.
Tools (electric)	Small appliances	Bulky waste if 50 cm or larger.
Tools (non-electric)	Non-burnable garbage	Bulky waste if 50 cm or larger.
Toothbrush	Burnable garbage	
Toothpaste	Burnable garbage	
Toothpick	Burnable garbage	
Towel	Fabrics	
Towel blanket	Fabrics	
Toys (metal)	Household metal	
Toys (plastic)	Burnable garbage	
Tray (food)	Plastic containers and packaging	Check for plastic mark. Clean dirt off. Burnable garbage if cannot be cleaned.
Tray (metal)	Household metal	
Treadmill	Oversized items of refuse	Bulky waste if under 1 m.
Tree branches (15 cm - 20 cm diameter)	Leaves, grass, gardening waste	Bundle to 80 cm length or less. Up to 3 bundles per time. See P. 13.
Tree branches (20 cm – 30 cm diameter)	Leaves, grass, gardening waste	Bundle to 30 cm length or less. Up to 3 bundles per time. See P. 13.
Tree branches (30 cm diameter or larger)	Bulky waste	See P. 21.
Tree branches (under 15 cm diameter)	Leaves, grass, gardening waste	Bundle to 1 m length or less. Up to 3 bundles per time. See P. 13.
Trellis (lattice/wood fence)	Bulky waste	Oversized items of refuse if 1 m – 2 m.
Tricycle	Bulky waste	Electric types not collected.
Tripod	Designated items	See P. 9.
Trivet	Household metal	
T-shirt	Fabrics	
Tube (food/toothpaste/cosmetics)	Plastic containers and packaging	Check for plastic mark. Empty contents and clean. Burnable garbage if cannot be cleaned.
Tube (metal)	Non-burnable garbage	
Tuner (TV/audio)	Small appliances	Bulky waste if 50 cm or larger.
TV (CRT/LCD/plasma/OLED)	4 designated home appliances	See P. 25.
TV stand	Bulky waste	Oversized items of refuse if 1 m or larger.
Typewriter	Non-burnable garbage	
U		
Udon noodles	Raw garbage	
Umbrella (metal frame)	Household metal	See P. 18.
Umbrella (non-metal frame)	Designated items	See P. 9.
Underwear (unused)	Fabrics	
Underwear (used)	Burnable garbage	
Unicycle	Bulky waste	
V		
Vacuum cleaner	Small appliances	Bulky waste if main unit is 50 cm or larger.
Vase (ceramic/glass)	Non-burnable garbage	Bulky waste if 50 cm or larger.
Vase (metal)	Household metal	Bulky waste if 50 cm or larger.
VCR	Small appliances	Bulky waste if 50 cm or larger.
Vegetable waste (peels/cores)	Raw garbage	
Ventilation fan (range hood fan)	Non-burnable garbage	Bulky waste if 50 cm or larger.
Video camera	Small appliances	Preferably place in small appliances collection box. See P. 14.
Video tape	Burnable garbage	Preferably take to collection point.

Waste and recyclables sorting list

	Item name	Category	Notes
	Vinyl gloves	Burnable garbage	
	Vinyl sheet	Bulky waste	Burnable garbage if cut to under 1 m and fits in designated collection bag with tie-able opening.
W	Wakeboard	Bulky waste	
	Walker	Bulky waste	
	Walking stick	Designated items	See P. 9.
	Wall awning	Bulky waste	Disassembled items only.
